

UNIVERZITA KARLOVA  
3. lékařská fakulta

## **PRACTICAL TRAINING FOR 4TH YEAR STUDENTS**

Students shall arrange for their practical training independently, in the scope of **2 weeks at the Department of Internal Medicine for adults and 2 weeks at the Department of Gynaecology and Obstetrics**. Students may choose from any of the hospitals where practical training of their colleagues was held in previous years (a list of the hospitals can be found on the website of our faculty) or they should arrange the practice in other hospital in the Czech Republic or abroad (for this option there are syllabuses available in English).

### **List of forms required for the internship completion:**

- 1) A letter to the hospital directors with information about the practice
- 2) Internal practice syllabus
- 3) Department of Gynaecology and Obstetrics practice syllabus
- 4) Evaluation report of the student practice at the department  
(1 for internal and 1 for Gyo practice)

### **List of requirements necessary to get credits:**

Student practice evaluation report

The document must include a department stamp and the responsible person's signature (e.g., the senior consultant of the department).

The mentioned forms will be available at the Study Division.

David Marx, M.D., Ph.D.

Vice-Dean for Undergraduate Education  
and student affairs
