CHARLES UNIVERSITY IN PRAGUE
Third Faculty of Medicine

ESSENTIAL STUDY GUIDE

List of Study Programmes and Workplaces
Academic Year 2008/2009

Prague 2008

TABLE OF CONTENTS:

ADMINISTRATION5

Charles University Administration.....	5
Administration of the Third Faculty of Medicine (3FM).....	5
Teaching Basis of the Third Faculty of Medicine.....	6
Affiliated Teaching Facilities of the Third Faculty of Medicine	6

ACADEMIC BODIES OF THE THIRD FACULTY OF MEDICINE.....7

Scientific Council.....	7
Academic Senate	9
Faculty Committees.....	10
Third Faculty of Medicine, Dean's Office	12
Centre of Scientific Information 3FM (Svi)	14
Computer Centre.....	16

INFORMATION ON THE FACULTY17

Research Areas of 3FM.....	17
Research Centres at 3FM.....	17
Faculty Staff.....	17
Czech Degrees and Academic Titles	18
Open Information Policy at 3FM	18
Information Media of 3FM.....	18
Ecological Policy and Education toward Ecological Thinking	18
Policy for Work with Experimental Animals.....	19
Sports at Charles University in Prague	19

OUTLINE OF STUDY PROGRAMMES, CURRICULUM21

Undergraduate Study	21
Life-Long Education	21
Medical Curriculum at the Third Faculty of Medicine.....	21

INFORMATION FOR STUDENTS24

Oath of Matriculation to Charles University in Prague	24
Pledge of Secrecy.....	24
Master's Pledge.....	24
Rules for the Organization of Studies at 3FM	25
Study and Examination Regulations of the 3FM	31
Fees for the Academic Year 2008/2009 at 3FM	40
Tutoring System.....	40
Student Counselling Centre.....	41
Health Care for Students of 3FM.....	42
Hepatitis B Vaccinations	43
Prevention of Health Risks	43
Information on Language Courses.....	43
Prizes for Students and Graduates	43
Foundations and Associations at 3FM.....	45
Halls of Residence - Dormitories	47
Refectories.....	48

STUDY PLANS49

Calendar for the Academic Year 2008/2009	49
------------------------------------------------	----

Study Division – Building No. 19	50
Master’s Programme	51
General Medicine (6-year Master’s Study Programme)	51
Optional Elective Courses - 2008/2009.....	61
Hours of Subjects in the Curriculum	63
Instruction in Modules and Courses	64

HISTORICAL NOTES..... 68

Charles University in Prague	68
Third Faculty of Medicine, Charles University in Prague	73

WORKPLACES OF THE THIRD FACULTY OF MEDICINE..... 76

BASIC WORKPLACES FOR EDUCATION AND RESEARCH	76
A) DEPARTMENTS.....	77
Department of Anatomy	77
Department of Biochemistry and Pathobiochemistry	77
Department of Biochemistry, Cell and Molecular Biology.....	78
Divison of Biochemistry	78
Division of Cell and Molecular Biology.....	78
Department of Child and Youth Health.....	78
Department of Epidemiology.....	79
Department of Ethics	79
Department of Foreign Languages.....	80
Department of Forensic Medicine	80
Department of General Biology and Genetics	80
Department of General Hygiene	80
Department of Histology and Embryology.....	81
Department of Immunology	81
Department of Medical Biophysics and Informatics.....	81
Department of Medical Microbiology.....	82
Department of Normal, Pathological and Clinical Physiology.....	82
Department of Nursing	83
Department of Nutrition	83
Department of Pathology.....	84
Department of Pharmacology.....	84
Department of Physical Education.....	85
Department of SportS Medicine	85
Czech-French Laboratory for Clinical Research on Obesity	85
B) DEPARTMENTS - JOINTLY WITH FNKV.....	86
1 st Department of Internal Medicine	86
2 ND Department of Internal Medicine	86
Centre for Research of Diabetes, Metabolism and Nutritrion.....	87
3 rd Department of Internal Medicine - Cardiology.....	87
Department of Anaesthesiology and Resuscitation.....	88
Department of Burns Medicine.....	88
Department of Cardiac Surgery.....	89
Department of Children and Adolescents.....	89
Department of Dermatovenerology	89
Department of General Surgery.....	90
Department of Gynaecology and Obstetrics.....	90
Division of Tumour Biology	91
Division of Molecular Biology and Pathology of Cells.....	91
Department of Neurology	91
Department of Neurosurgery.....	92
Department of Nuclear Medicine	92
Department of Occupational and Travel Health	92
Department of Ophthalmology.....	92

Department of Orthopaedics and Traumatology	93
Department of Otorhinolaryngology.....	93
Department of Plastic Surgery	94
Department of Radiodiagnostics.....	94
Department of Radiotherapy and Oncology	94
Department of Rehabilitation Medicine	95
Department of Stomatology.....	95
Department of Urology	95
- JOINTLY WITH FTNSP.....	96
Department of Child Surgery and Traumatology of the 3 rd Faculty of Medicine and Thomayer Faculty Hospital with Polyclinic.....	96
- JOINTLY WITH FNB	96
Department of Infectious Diseases	96
Department of Pneumology.....	96
- JOINTLY WITH PCP	96
Department of Psychiatry and Medical Psychology.....	96
Department of Psychiatry	96
Division of Medical Psychology	97
- JOINTLY WITH ÚVN	98
Department of Otorhinolaryngology of the Central Military Hospital and Third Faculty of Medicine.....	98
- JOINTLY WITH ÚPDM	98
Institute for Mother and Child Care in Prague-Podolí.....	98
C) AUTONOMOUS WORKPLACES.....	98
Centre for Health Law	98
Division of History of Medicine	98
Division of Public Health.....	98
Division of Primary Care	98
FUNCTIONAL UNITS OF THE FACULTY	99
EDUCATIONAL.....	99
Department of Biomedical Sciences.....	99
Department of Gynaecology and Obstetrics.....	99
Department of Surgery.....	99
Department of Internal Medicine	99
Department of Preventive Medicine.....	99
RESEARCH.....	100
Centre for Research on Diabetes, Metabolism and Nutrition.....	100

- Nursing College, Ruská 91, Praha 10 (SZŠ)

ACADEMIC BODIES OF THE THIRD FACULTY OF MEDICINE

SCIENTIFIC COUNCIL

CHAIR

Doc. MUDr. Bohuslav Svoboda, CSc.

Dean of the Third Faculty of Medicine and Head of the Department of Gynaecology and Obstetrics

MEMBERS

Prof. MUDr. Michal Anděl, CSc.

Vice-Dean, Head of Department, 2nd Department of Internal Medicine

Prof. MUDr. Jan Bartoníček, DrSc.

Head of Department, Department of Orthopaedics and Traumatology

Doc. MUDr. Marek Bednář, CSc.

Head of Department, Department of Medical Microbiology

Prof. MUDr. Miroslav Cikrt, CSc.

State Institute of Health, Praha

Prof. MUDr. Milena Černá, DrSc.

Head of Department, Department of General Hygiene

Prof. MUDr. Pavel Haninec, CSc.

Vice-Dean, Head of Department, Department of Neurosurgery

Prof. MUDr. Jiří Horák, CSc.

Vice-Dean, Head of Department, 1st Department of Internal Medicine

Prof. MUDr. Cyril Höschl, DrSc.

Head of Department, Department of Psychiatry and Medical Psychology; Director, Psychiatric Centre Prague

Prof. MUDr. Pavel Kalvach, CSc.

Department of Neurology

Prof. MUDr. Miloslav Kršiak, DrSc.

Head of Department, Department of Pharmacology

Prof. MUDr. Václav Mandys, CSc.

Head of Department, Department of Pathology

Prof. MUDr. Richard Rokyta, DrSc.

Head of Department, Department of Normal, Pathological and Clinical Physiology

Doc. MUDr. Vlasta Rychterová, CSc.

former Head of Department, Department of Pathology

Prof. MUDr. Josef Stingl, CSc.

Head of Department, Department of Anatomy

Doc. MUDr. Michael Urban

Head of Department, Department of Urology

Prof. MUDr. Petr Widimský, DrSc.

Head of Department, 3rd Department of Internal Medicine - Cardiology

Prof. MUDr. Petr Zatloukal, CSc.

Head of Department, Department of Pneumology

MUDr. Milan Bořek

Director, State Institute of Health, Prague

Plk. MUDr. Štefan Brunclík

Director, Central Military Hospital, Prague

MUDr. Miroslav Čerbák

Medical Ward, Hospital Česká Lípa

Doc. MUDr. Jaroslav Feyereisl, CSc.

Director, Institute for Mother and Child Care in Prague Podolí

Doc. MUDr. Vojtěch Hainer, CSc.

Director, Institute of Endocrinology, Prague

Doc. MUDr. Karel Havlíček, CSc.

Head Physician, Surgical Ward, Hospital Pardubice

Doc. MUDr. Zdeněk Holub, CSc.

Head Physician, Gynaecology and Obstetrics Ward, Hospital Kladno

MEMBERS	<p>Doc. MUDr. Leo Klein, CSc. Department of Surgery, Faculty Hospital in Hradec Králové</p> <p>MUDr. František Koukolík, DrSc. Head Physician, Department of Pathological Anatomy, FTNSP</p> <p>Prim. MUDr. Jan Nedvídek Head Physician, Medical Ward, Hospital Liberec</p> <p>Prof. MUDr. Bohumil Ošťádal, DrSc. Institute of Physiology, Czech Academy of Sciences, Prague</p> <p>prim. MUDr. Luděk Ryba Head Physician, Paediatric Ward, Hospital Ústí n.O.</p> <p>MUDr. Marek Zeman Director, Faculty Hospital Královské Vinohrady</p>
HONORARY MEMBERS	<p>Prof. MUDr. Oldřich Čech, DrSc. former Head Physician, Department of Orthopaedics and Traumatology</p> <p>Prof. MUDr. Radana Königová, CSc. former Head Physician, Department of Burns Medicine</p> <p>MUDr. Karel Kříkava, CSc. Head Physician, Surgical Ward, Hospital Pelhřimov</p> <p>Prof. MUDr. Kamil Provazník, CSc. Department of Child and Youth Health</p> <p>Prof. MUDr. Vlastimil Slouka, CSc. former Head of Department, Department of Medical Biophysics and Informatics</p> <p>Prof. MUDr. Jiří Schindler, DrSc. former Head of Department, Department of Microbiology</p> <p>Prof. MUDr. RNDr. Luboslav Stárka, DrSc. Institute of Endocrinology, Prague</p> <p>Prof. MUDr. Vladimír Vonka, DrSc. Researcher, Institute of Haematology and Blood Transfusion, Prague</p>
FOREIGN MEMBERS (with an advisory vote)	<p>Prof. J. M. Besson Inserm, Paris, France</p> <p>Prof. Rita Rossi Colwell The National Science Foundation, Arlington, Virginia, USA</p> <p>Prof. Sture Falkmer, M.D., Ph.D. Department of Pathology, University Hospital, Trondheim, Norway</p> <p>Prof. Paul Grof, M.D., F.R.C.P. Ottawa Hospital, Dept. of Psych., Ottawa, Ontario, Canada</p> <p>Prof. Walter W. Holland Division of Community Health St. Thomas Hospital Lamberth, London, UK</p> <p>Dr. med. Denis Laurent Kaech Neurosurgery Dept., Rätisches Kantons und Regionalspital, Switzerland</p> <p>Prof. Klaus A. Miczek Dept. of Psychology Tufts University, Medford Massachusetts, USA</p> <p>Prof. Hugues Monod Lab. de Physiologie Faculté de Médecine Université P. et M. Curie Paris, France</p> <p>Prof. Solomon L. Moshé, M.D. Albert Einstein College of Medicine, NY, USA</p> <p>Prof. Premysl Ponka, M.D., Ph.D. Mc. Gill University Montreal, Canada</p> <p>Prof. Karel Raška, Jr., M.D., Ph.D. University of Medicine and Dentistry of New Jersey, New Jersey, USA.</p> <p>Prof. Norman Sartorius 1 avenue Gilbert Trolich 1209 Geneva, Switzerland</p> <p>Prof. Dr. Robert Schmidt Physiol. Institut Röntgenring, Würzburg, BDR</p> <p>Prof. Jan Volavka, M.D. Nathan S. Kline Institute Orangeburg New York, USA</p>
SECRETARY	<p>Blanka Alinčová tel. +420 267 102 363 e-mail: blanka.alincova@lf3.cuni.cz</p>

ACADEMIC SENATE

IX. Elective session from December 1st, 2007 to November 30th, 2010

CHAIR

MUDr. David Marx, Ph.D. - marx@fnkv.cz

VICE-CHAIRS:

Doc. MUDr. Hana Provazníková, CSc.
Zuzana Elbertová

MEMBERS

OF TEACHING STAFF

Clinical practitioners:

Doc. MUDr. Valér Džupa, CSc.
MUDr. Robert Grill, Ph.D.
MUDr. Martin Havrda
MUDr. Jara Hornová, CSc.
Doc. MUDr. Milan Kment, CSc.
MUDr. David Marx, PhD.
Doc. MUDr. Miroslav Tvrdek.
Prof. MUDr. Petr Widimský, DrSc.

Other departments:

Mgr. Zdena Čábelková.
Doc. MUDr. Alexandr M. Čelko, CSc.
MUDr. Pavel Dlouhý.
Prof. MUDr. Václav Mandys, CSc. .
MUDr. Jan Polák, Ph.D.
Doc. MUDr. Hana Provazníková, CSc.
Doc. MUDr. Jozef Rosina, Ph.D.
RNDr. Ing. Petr Tůma, Ph.D.

STUDENT MEMBERS

Věra Bezděková
Zuzana Elbertová
Kristian Figenschou
Denisa Frajerová
Peter Ivák
MUDr. Štěpán Jelínek
MUDr. David Macharáček
Martina Novotná
Kateřina Pokorná
Radek Rutkowski
Tereza Smrčková
Anette Svensgard Steinert
Jiří Šedo
Barbara Šimanovská
Magdalena Tichá
Martina Tomášková

ELECTED REPRESENTATIVES OF 3FM IN THE AS OF CHARLES UNIVERSITY

MUDr. David Marx, Ph.D.

ELECTED REPRESENTATIVE OF 3FM IN THE COUNCIL OF UNIVERSITIES AND COLLEGES

MUDr. Robert Grill, Ph.D.

Doc. MUDr. Marek Bednář, CSc.

SECRETARY OF THE AS

Jana Jeníčková
tel.: +420 26710 2227
e-mail: akademicky.senat@lf3.cuni.cz

FACULTY COMMITTEES

DISCIPLINARY COMMITTEE	Chair:	Doc. MUDr. Daniela Janovská, CSc.
	Members:	Doc. MUDr. Hana Provazníková, CSc. Doc. MUDr. Vlasta Rychterová, CSc. Doc. RNDr. Eva Samcová, CSc.
	Students:	Kateřina Pokorná MUDr. Štěpán Jelínek
EDITORIAL COMMITTEE	Chair:	Prof. MUDr. Radana Königová, CSc.
	Members:	Mgr. Marie Fleissigová Prof. MUDr. Pavel Gregor, DrSc. PhDr. Martina Hábová
	Chair:	Mgr. Marek Vácha, Ph.D.
ETHICS COMMITTEE	Members:	JUDr. Ondřej Dostál MUDr. Lydie Fialová Prof. MUDr. Radana Königová, CSc. Doc. MUDr. Ladislav Mertl, CSc. Bc. Agata Pibilová PhDr. Marie Zvoničková
	Chair:	Marta Koudelková
	Members:	Anna Maršálová Lenka Saláková Bohdana Trejtnarová
INVENTORY COMMITTEE	Chair:	Ing. Jaroslav Šnajdr
	Members:	Doc. MUDr. Jozef Rosina, Ph.D. Jaroslava Hájková
	Chair:	Doc. MUDr. Daniela Janovská, CSc.
LIQUIDATION COMMITTEE	Members:	Doc. MUDr. Marek Bednář, CSc. MUDr. Alena Doubková, CSc. Mgr. Vladimíra Kvasnicová MUDr. David Marx, Ph.D. Doc. MUDr. Vlasta Rychterová, CSc. Doc. RNDr. Eva Samcová, CSc. Bc. Alena Vlasáková, DiS
	Students:	Zuzana Elbertová Denisa Frajerová Martina Novotná, Magdalena Tichá Radoslav Rutkowski Petra Šimůnková, Jiří Šedo
	Chair:	JUDr. Petr Šustek
COMMITTEE FOR COMPENSATION OF DAMAGES	Members:	Doc. MUDr. Alexandr M. Čelko, CSc. MUDr. Jolana Rambousková, CSc. Ing. Daniel Šuta, Ph.D. Milan Mašek
	Secretary:	Bc. Alena Vlasáková, DiS.
	Chair:	Prof. MUDr. Miloslav Kršiak, DrSc.
COMMITTEE FOR PROTECTION OF EXPERIMENTAL ANIMALS	Members:	Doc. RNDr. Pavel Rödl, CSc. MVDr. Ivan Štácha RNDr. Hana Tejkalová Doc. MVDr. Šimon Vaculín, Ph.D. Doc. MUDr. Romana Šlamberová, Ph.D. MUDr. Klára Bernášková, CSc. MVDr. Petra Tomanová
	Student:	Jan Hrudka
	Chair:	Doc. MUDr. Evžen Hrnčíř, CSc., MBA
COMMITTEE FOR OCCUPATIONAL RISKS AND ADDITIONAL HOLIDAYS	Members:	Doc. MUDr. Monika Kneidlová, CSc. Doc. MUDr. Jozef Rosina, Ph.D. Alena Vízková Marta Zezuláková

COMMITTEE FOR EDUCATION	Chair:	Prof. MUDr. Jiří Horák, CSc.
	Heads of Cycles:	Prof. MUDr. Josef Stingl, CSc. Prof. MUDr. Jiří Horák, CSc.
	Heads of Modules:	Prof. MUDr. Michal Anděl, CSc. Prof. MUDr. Richard Rokyta, DrSc. Doc. RNDr. Eva Samcová, CSc. Doc. MUDr. Jozef Rosina, Ph.D. Mgr. Marek Vácha, Ph.D. Mgr. Hana Svobodová Prof. PhDr. Jiří Kožený, CSc. Doc. MUDr. Vlasta Rychterová, CSc. Prof. MUDr. Petr Zatloukal, CSc. Prof. MUDr. Jan Bartoniček, DrSc. Doc. MUDr. Bohuslav Svoboda, CSc. Prof. MUDr. Milena Černá, DrSc. Prof. MUDr. Cyril Höschl, DrSc. Doc. MUDr. Hana Provazníková, CSc. Doc. MUDr. Jana Málková, CSc. Doc. MUDr. Felix Votava, Ph.D.
	Students:	MUDr. Alena Doubková Věra Bezděková Denisa Mlčochová Radek Rutkowski Tereza Smrčková Pavel Spas Jiří Šedo Magdalena Tichá Martina Tomášková Edita Zeidlerová
RESEARCH AND DEVELOPMENT COMMITTEE	Chair:	Prof. MUDr. Michal Anděl, CSc.
	Members:	Prof. MUDr. Jiří Horák, CSc. Prof. MUDr. Josef Stingl, CSc. Prof. MUDr. Petr Widimský, DrSc. Prof. MUDr. Cyril Höschl, DrSc. Prof. MUDr. Richard Rokyta, DrSc. MUDr. František Duška, Ph.D. Doc. MUDr. Jiří Horáček, Ph.D. MUDr. Štěpánka Průhová, Ph.D.
	Students:	Pavel Martínek Peter Ivák
COMPUTER EQUIPMENT COMMITTEE	Chair:	Doc. MUDr. Jozef Rosina, Ph.D.
	Members:	Doc. MUDr. Marek Bednář, CSc. Ing. Antonín Dvořák Doc. MUDr. Milan Kment, CSc. MUDr. Tomáš Kostrhun Ing. Daniel Šuta, Ph.D.
	Students:	Jiří Šedo Zoltán Kokeš
INTERNATIONAL RELATIONS COMMITTEE	Chair:	Prof. MUDr. Pavel Haninec, CSc.
	Members:	Doc. RNDr. Eva Samcová, CSc. Doc. MUDr. Daniela Janovská, CSc. Doc. MUDr. Alexandr Martin Čelko, CSc. MUDr. Jana Dáňová, Ph.D.
	Students:	Růžena Hrušková Marcela Čechová Zuzana Elbertová Zoltán Kokeš Anna Mírová

INFORMATION ON LIBRARY SERVICES AT THE BEGINNING OF ACADEMIC YEAR 2008/09

- 1.9. - 5.9. 2008** only book returns
8.9. - 19.9. 2008 registration of higher years along with the Study Division
22.9. - 26.9. 2008 registration of 1st-year students
29.9. - 10.10. 2008 registration of all years (no limit)

Between 1.9. - 10.10. 2008 the library is open:

Monday - Thursday 8.00 - 12.00, 13.00 - 15.00, Friday 8.00 - 13.00

Bring along your study index and green student card.

Upon completed registration of all readers, regular opening hours will apply as of 13.10. 2008:

Monday	8.00 - 12.00, 13.00 - 16.00
Tuesday + Thursday	8.00 - 18.00
Wednesday	8.00 - 16.00
Friday	8.00 - 14.00

MAIN ACTIVITIES AND SERVICES OF SVI

- procurement and processing of data from all kinds of local as well as foreign information sources for the central library and depositories
- in-house and long-term book-loans
- interlibrary loan service and international interlibrary loan service (for the employees of the Third Faculty of Medicine)
- purchase of and access to information databases, electronic sources and full-text journals
- processing of running and retrospective background researches
- processing of publishing activities of the staff of the Third Faculty of Medicine
- electronic production of slides, scanning
- bibliography-information services
- reprographic services
- edition activity (VNS, VNR, web pages)
- topical training
- participation in research tasks and projects

RULES FOR BORROWING INFORMATION MATERIALS - SVI 3FM

The valid Rules for Borrowing Information Materials (according to the Library Act of 2001 and to the Dean's Decree No.6/2006) are given to every student in a printed form upon enrolment. The Rules are at the same time published on the SVI website.

RULES FOR BORROWING INFORMATION MATERIALS IN THE ACADEMIC YEAR 2008/2009

Before borrowing new study material for the coming academic year, the students are obliged to:

- Return all study material undamaged, and meet all solicited claims;
- Present a credit book with a corroboration of regular enrollment for the coming academic year;
- Present a bar-code ID card of the Third Faculty of Medicine for a checkout;
- Register for or extend the users' rights.

RECOMMENDED READING

The list of recommended reading is published on SVI webpage (<http://www.lf3.cuni.cz/en/svi>) in the section Faculty Library or in the Study Information System under Subjects application.

READING ROOMS AND OPENING HOURS

BOOK AND JOURNAL LOANS, STUDY ROOM WITH FREE SELECTION (SVI 3FM) + PC WORKSTATION WITH FREE ACCESS TO A SCANNER

(central faculty collection of book funds, incl. journal fund for students and staff)

Composition of the funds: monographs, textbooks, journals, videocassettes, diploma papers, dissertation and degree theses on request, special documents, e.g. CD-ROMs, slides, subscribed e-books and e-journals - on-line full-text access

Opening hours:

Mon 8.00 - 12.00 + 13.00 - 16.00, **Tue + Thu** 8.00 - 18.00, **Wed** 8.00 - 16.00, **Fri** 8.00 - 14.00

Number of workplaces: 38

COMPUTER CENTRE

SCOPE OF WORK AND SERVICES AT THE COMPUTER CENTRE 3FM

- Administration and maintenance of computer network, faculty servers, PC workstations and basic peripherals owned by 3FM, support of faculty users
- Administration of following systems: editing system of faculty webpages, study information system, LDAP, camera system, card system for faculty building entrance
- Administration of user accounts in CAS
- Training of editors of faculty webpages
- Mediation of software licence purchase

COMPUTER ROOMS

GENERAL COMPUTER ROOM - NO ATTENDANT (ROOM NO. 222) + INCL. INTERNET ACCESS

- number of computers: 20
- number of workplaces: 20
- access: 6.00 - 20.00, every day, incl. Saturdays and Sundays

COMPUTER AND STUDY ROOM FOR POSTGRADUATE STUDENTS (6TH FLOOR - DEPARTMENT OF MEDICAL BIOPHYSICS AND INFORMATICS) - ON REQUEST, NO ATTENDANT, INTERNET ACCESS

- number of computers: 20
- number of workplaces: 20
- access: daily, except for classes, Saturdays and Sundays

COMPUTER AND STUDY ROOM - DEPARTMENT OF PHARMACOLOGY (5TH FLOOR) - ON REQUEST, NO ATTENDANT, INTERNET ACCESS

- number of computers: 16
- number of workplaces: 30
- access: daily, apart from classes, Saturdays and Sundays

COMPUTER AND STUDY ROOM - DEPARTMENT OF NORMAL, PATHOLOGICAL AND CLINICAL PHYSIOLOGY AT KARLOV

- number of computers: 4
- number of workplaces: 18
- access: daily, except for classes, Saturdays and Sundays

INFORMATION ON THE FACULTY

RESEARCH AREAS OF 3FM

MSM 0021620814:

Prevention, diagnostics and therapy of diabetes mellitus, metabolic and endocrine disorders
Chief researcher: prof. MUDr. Michal Anděl, CSc.

MSM 0021620816:

Pathophysiology of neuropsychiatric disease and its clinical application
Chief researcher: prof. MUDr. Richard Rokyta, DrSc.

MSM 0021620817:

Invasive approaches to salvation or regeneration of myocardium
Chief researcher: prof. MUDr. Petr Widimský, DrSc.

Co-operation

MSM 002162808:

Molecular biologic, genetic and epigenetic aspects of emergence and development of model tumours in adult age. Importance for epidemiology, early diagnosis and treatment

Chief researcher: prof. MUDr. Pavel Klener, DrSc., 1FM CU

Co-researcher from 3FM: prof. MUDr. Václav Mandys, CSc.

MSM 0021620812:

Chronical diseases stemming from inadequate reactivity of immune system, their pathogenesis and chances for early diagnostics and treatment

Chief researcher: prof. MUDr. Jiřina Bartůňková, DrSc., 2FM CU

Co-researcher from 3FM: doc. MUDr. Petr Kučera, Ph.D.

MSM 0021620806:

Molecular biology and cell pathology in normal conditions and in select clinically severe pathological processes

Chief researcher: prof. MUDr. Milan Elleder, DrSc., 1FM CU

Co-researcher from 3FM: doc. RNDr. Ilona Hromadníková, Ph.D.

RESEARCH CENTRES AT 3FM

CENTRES OF BASIC RESEARCH - CO-OPERATION

LC 554 - Centre for Neurosciences

Chief researcher: prof. MUDr. Eva Syková, DrSc., CAS

Co-researcher from 3FM: prof. MUDr. Richard Rokyta, DrSc.

RESEARCH CENTRES 1M - CO-OPERATION

1M0002375201 – *Centre of neuropsychiatric studies*

Neurological mechanisms in psychopathology of mental disorders and pain

Chief researcher: prof. MUDr. Cyril Höschl, DrSc., PCP

Co-researcher from 3FM: prof. MUDr. Richard Rokyta, DrSc.

FACULTY STAFF

Number of academic Staff (as of 31 May 2008):

Category	Real persons	Work positions
Professors	35	25,85
Assistant Professors	74	49,56
Senior Lecturers	292	133,07
Junior Lecturers	32	18
Instructors	13	7,42
Total	446	233,90

CZECH DEGREES AND ACADEMIC TITLES

Prof.	Professor
Doc.	Associate Professor
DrSc.	D.Sc.
MUDr.	M.D. (Doctor of Medicine)
PharmDr.	Pharm.D. (Doctor of Pharmacy)
PhDr.	Doctor of Philosophy (vaguely corresponds to M.A.)
Ph.D. (formerly CSc.)	Ph.D.
Mgr.	M.A.
Ing.	M.Sc. (engineering)
RNDr.	M.Sc. (natural science)
Bc.	B.A.
MBA	MBA

OPEN INFORMATION POLICY AT 3FM

The faculty management appointed several of its members to be in charge of public relations and contact with media. They are:

prof. MUDr. Jiří Horák, CSc. - development of undergraduate studies, technology transfer, specialist education - tel. +420-267 162 357, e-mail: horak@fnkv.cz

prof. MUDr. Michal Anděl, CSc. - academic qualifications, research and development, postgraduate studies, student research activity, Faculty Scientific Council, tel./fax: +420-267162710, e-mail: michal.andel@lf3.cuni.cz

Bc. Alena Vlasáková, DiS., Head of Study Division - study matters, tel/fax +420-272 730 776, tel. +420-267 102 205, e-mail: alena.vlasakova@lf3.cuni.cz.

INFORMATION MEDIA OF 3FM

VITA NOSTRA SERVIS (VNS) - ENGLISH VERSION

The information bulletin in English brings a selection of news from the Third Faculty of Medicine for students of the English curriculum. It has been published since 2003 from September till June. The number of printed copies amounts to 40, electronic full text is available on faculty website.

Editor: PhDr. Martina Hábová, e-mail: vns@lf3.cuni.cz

VNR (VITA NOSTRA REVUE)

A magazine with a fairly general focus shedding light on the systems of education and health in the Czech Republic comes out with new articles and reflects current political and social situation in these areas. Published 4 times a year in Czech, since 1999 accessible also on faculty website.

Editor: Mgr. Marie Fleissigová, e-mail: marie.fleissigova@lf3.cuni.cz

WEB PAGES - WWW.LF3.CUNI.CZ

Webmaster of faculty website: Ing. Antonín Dvořák, e-mail: webmaster@lf3.cuni.cz

ECOLOGICAL POLICY AND EDUCATION TOWARD ECOLOGICAL THINKING

In the course of all study programmes at the 3FM, the faculty emphasizes preventive issues including the promotion of ecological thinking and acting, thus supporting the young generation in understanding relations between environmental factors and health.

The faculty management pays attention to education of students toward ecological behaviour and it takes a practical stance striving for the safeguarding of natural heritage for future generations. This translates into daily life as educational activities and a thorough ecological policy of 3FM in the field of waste disposal (both common and potentially hazardous one).

WASTE DISPOSAL

In order to sort recyclable common waste, properly marked plastic containers for a separate collection of plastic waste and paper are located on every floor of the faculty building. A hazardous waste produced by faculty workplaces is stored according to the norms of the Czech Republic. It is disposed of by SCHB a.s. company as needed by respective workplaces.

We sort, dispose and recycle where possible:

- waste containing inorganic chemicals;
- waste containing organic chemicals;
- sharps (used injection needles);
- other waste with potential infection hazard;
- other waste without potential infection hazard;
- discarded chemicals or drugs, light bulbs, fluorescent tubes and lamps;
- toner cartridges from printers and copy machines.

POLICY FOR WORK WITH EXPERIMENTAL ANIMALS

Work with experimental animals at the Third Faculty of Medicine is ruled by valid norms, i.e. Animal Protection against Abuse Act No. 246/1992 Coll. (as amended by Act No. 77/2004) and the decree No. 207/2004. There is an expert committee for protection of experimental animals working at the Third Faculty of Medicine. The faculty was accredited to keep animals and run experiments on them, the respective employees were trained and certified accordingly. Any experiment involving animals must be based on a project approved by the faculty expert committee and supervising bodies.

Apart from abiding by principles it is also necessary to treat the animals well. We aim for minimal use of animal models in teaching (they are substituted for by computer simulations). If the animal must be used, then experiments are designed so that pain/suffering are minimized.

If pain or stress assessment are the objective of the research, then a special emphasis is put on the maximum asset to knowledge and health, and on the scientific quality of the project so that its results could be published in a recognized international journal.

SPORTS AT CHARLES UNIVERSITY IN PRAGUE

The Department of Physical Education of the Second and Third Faculties of Medicine and the university sports club Medik provide for sport activities of students, teachers and employees of these faculties and their teaching hospitals in Královské Vinohrady and Motol.

Most sport activities take place in a great complex of University Sports Centre in Praha-Hostivař. There are an athletic stadium, football and softball fields, 10 tennis courts, 2 volleyball courts, a hall with three basketball / volleyball courts, 2 inflatable halls, a tennis hall, two aerobic gyms, a gym for martial arts, a fitness centre and a modern 25m swimming pool.

The University Sports Centre serves not only for physical education but also for sports activities of respective university sports clubs and unions. Its advantages and availability will probably be most favoured by university students housed at the dormitory of former Vltava campus.

Rector's and Dean's Sports Days have a long tradition at Charles University. Even though tournaments, competitions, and races are the main programme, there is always time and space for free sporting of students and staff and for informal meeting among these. Sports Days take place under auspices of the Rector or the Dean; assistants of our Department carry out their organisation and management.

Students of our faculty regularly participate in competitions on university, regional and national levels (academic championships of CR). Students of the Third Faculty of Medicine are members of university representation teams both in individual and collective sports. Assistants from our Department are among designated coaches of these teams.

The VSK Medik Praha is composed of several clubs: cycling, floorball, football, skiing, canoeing, swimming, softball and volleyball. In the swimming, football and floorball clubs, there are top sportsmen (apart from students who do sports for their recreation). The former participate in academic competitions and regular competitions organised by the Czech Union of Sports. The female floorball team has been in the top Czech league since 2004 and successfully represents the VSK club and both faculties.

Apart from regular training that runs all year round, the clubs offer weekend and week-long trips and stays to their members. These events are organised either at home or abroad and are attended by both recreational and top sportsmen.

With regard to our limited spectrum of sports activities, we enable our students to take part in sports performed by clubs of other faculties of Charles University as well.

Summer courses and recreation for faculty staff are held in Dobronice, Albeř and Střelecké Hořtice sport centres. The Patejdlovka chalet in Špindlerův Mlýn and VAK chalet in Pec pod Sněžkou are used both for winter student courses and family recreation of university staff.

Information on all events organised by our Department or by the VSK Medik is published in VNS and on the Faculty website.

Detailed info can be obtained from Department staff in their office on Bruslařská 10, Praha 10 - Hostivař.

OUTLINE OF STUDY PROGRAMMES, CURRICULUM

UNDERGRADUATE STUDY

The Third Faculty of Medicine offers the following undergraduate study programmes:

MASTER'S PROGRAMME "GENERAL MEDICINE" - FORM OF STUDY: FULL-TIME

- **in Czech language**

The standard length of study is six years. Graduates from the Faculty achieve a complete medical education. After a successful completion of their studies, they are awarded the degree MUDr. (Medicinae Universae Doctor). They may practice in all medical disciplines. Since the academic year 1996/7, the teaching and learning has been going according to a new curriculum, which shall enable students to acquire integrated knowledge in theoretical and pre-clinical subjects. Basic clinical problems are presented to students in the form of problem-oriented study and clinical training aims at application of theoretical knowledge and mastering of practical skills. Educational goals are in agreement with the Euroskills programme of European medical faculties, which the Third Faculty of Medicine joined. The study is compatible with studies at other medical faculties and enables transfers.

- **in English language**

The standard length of study is six years. The Third Faculty of Medicine started teaching this study programme in English for foreign applicants in the academic year 1991/2. The study is parallel to the education in Czech language. Tuition fees are set in accordance with the Higher Education Act No. 111/1998 Coll. in the valid version. Graduates from the Faculty achieve a complete medical education with extended knowledge in the area of preventive health care. After a successful completion of their studies, they are awarded the degree MUDr. (Medicinae Universae Doctor). They may practice in all medical disciplines. Foreign students are obliged to master Czech language by the end of the 2nd year of studies so that they can communicate with patients and hospital staff during their clinical training. As of the academic year 2004/5, the tuition fee per one student and one academic year in English language is CZK 290.000. The Third Faculty of Medicine is accredited by the U.S. Department of Education for the study of U.S. students.

Expected number of students in Master's programme

Year	General Medicine in Czech	General Medicine in English
I	160	60
II	175	68
III	176	88
IV	146	16
V	162	51
VI	128	12
Total	947	295

LIFE-LONG EDUCATION

PREPARATORY COURSES FOR APPLICANTS – PREMEDICAL COURSE

3FM CU annually organizes preparatory courses for applicants in medicine both in Czech and English languages. Detailed information is on the faculty website – in menu For Applicant.

MEDICAL CURRICULUM AT THE THIRD FACULTY OF MEDICINE

The traditional way of teaching medicine introduced world-wide at the beginning of the 20th century does no longer meet current demands of education process. The problem is caused mainly by a growing gap between constantly increasing amount of knowledge together with development of new methods and traditional structure of medical curriculum that is based on the organization of faculty into traditional Departments. The educational process in traditional curriculum is divided according

to individual theoretical or clinical disciplines. Thus each discipline has its own textbook, Department, chief lecturer as well as examiner. Horizontal interdisciplinary connections among such well-defined fields are minimal and students are expected to create them themselves. However, in reality the borders between current medical disciplines disappear and new border-line and interdisciplinary fields emerge. These are difficult to integrate into the traditional curriculum.

In the academic year 1996/97, the Third Faculty of Medicine established a new curriculum where medical studies are divided into 3 basic sections - two-year cycles that differ, apart from other things, in a methodical approach to education. Cycle I is an integrated study in terms 1-4, cycle II has an integrated part in term 5 and its bulk consists of problem-oriented study in terms 6-8. Cycle III (terms 9-12) is devoted to rotating clinical training at various Clinics. The cycles are further structured into smaller units - modules and courses.

The basic modules in Cycle I are as follows: Structure and Functions of Human Body elucidates integrated knowledge of anatomy, histology, embryology, biochemistry and physiology; Cell Biology and Genetics integrates biology, fundamentals of histology and embryology, chemistry and biochemistry of the cell, immunology and fundamentals of genetics; Methodology explains the basics of scientific methodology, biostatistics, epidemiology and evaluation of health risks; Biophysics and Informatics shed light on fundamentals of medical biophysics, nuclear medicine, radiology and informatics. From the beginning of their studies, students encounter patients within the Needs of the Patient module, where they acquire basic ideas about nursing techniques, first aid, psychology and medical ethics.

Foreign language education focused on medical terminology and the Czech language is included in this cycle along with physical training.

In year III, term 5, the module Theoretical Foundations of Clinical Medicine integrates the knowledge of general pathology, pathological physiology, microbiology, immunology, genetics and pharmacology. Besides, students are introduced to basic clinical examination techniques step-by-step in all clinical disciplines. So they receive valuable experience in a complex form that they later build upon. (The traditional curriculum does not offer such an opportunity in some clinical subjects until year V). In following 3 semesters, the Clinical and Pathological Foundations of Medicine module is taught, consisting of 19 courses of varying length. The aim is to facilitate understanding of etiology and pathogenic mechanisms of the most common diseases, to become familiar with their signs, symptoms, application and interpretation of tests and different methods of examination, as well as with foundations of treatment procedures.

During the cycle II, students are also obliged to take a certain number of elective courses according to their interest. The faculty offers more than a hundred of these in-depth courses covering the whole spectrum of medical disciplines.

In years V and VI the curriculum focuses on clinical training which takes place in faculty Clinics and often also in affiliated health care facilities both in Prague and outside of it.

STRUCTURE OF THE CURRICULUM:

Cycle I (Year 1- 2: Basic Biomedical Sciences) - Head: prof. MUDr. Josef Stingl, CSc.

- Module A: Structure and Functions of Human Body
- Module B: Cell Biology and Genetics
- Module C: Biophysics and Informatics
- Module D: Needs of the Patient
- Module E: Methodology

Separate courses:

- Medical Terminology (Latin)
- Physical Training
- Summer Practice in Nursing
- Course in the Czech Language

Cycle II (Year 3 - 4: Principles of Clinical Medicine) - Head: prof. MUDr. Jiří Horák, CSc.

Module A: Theoretical Foundations of Clinical Medicine

Module B: Clinical Propaedeutics

Module C: Clinical and Pathological Foundations of Medicine

Module D: Elective Courses or Student Research Activity

Separate courses:

Czech Language - Communication with Patients

Medical Psychology and Pathopsychology

Pharmacology

Pathology and Pathological Physiology

Summer Practice in Internal Medicine

Summer Practice in Surgery

Cycle III (Year 5 - 6: Clinical Preparation) - Head: prof. MUDr. Michal Anděl, CSc.

Module of Internal Medicine

Module of Surgery

Module of Neurobehavioral Sciences

Module of Gynaecology and Obstetrics

Module of Paediatrics

Module of Preventive Medicine

Separate courses:

Otorhinolaryngology

Ophthalmology

Dermatovenerology

Forensic Medicine

Emergency Medicine

Infection & Geographic Medicine

Summer Practice in an Elective Discipline (or in General Practice)

Summer Practice in Gynaecology and Obstetrics

INFORMATION FOR STUDENTS

OATH OF MATRICULATION TO CHARLES UNIVERSITY IN PRAGUE

"I promise to properly exercise the rights and fulfill the duties as a member of the academic community at Charles University. I promise to respect the reputable humanistic and democratic tradition of Charles University, to regard to its good reputation and to study so that my activity yields universal good."

PLEDGE OF SECRECY

"I hereby solemnly declare that I shall keep silence about all known facts, especially those that concern patients, which I will learn during my studies for the academic distinction at the Third Faculty of Medicine."

MASTER'S PLEDGE

Promotor:

Doctorandi clarissimi, examinibus, quae ad eorum, qui in arte medica doctoris nomen ac honores consequi student, doctrinam et facultatem explorandam lege constituta sunt, cum laude superatis, nos adiistis desiderantes, ut vos eo honore in hoc solemnii consessu ornaremus.

Prius autem fides est danda, vos tales semper futuros, quales vos esse iubebit dignitas, quam obtinueritis, et nos vos fore speramus.

Spondebitis igitur

PRIMUM vos huius Universitatis, in qua summum in arte medica gradum ascenderitis, piam perpetuo memoriam habituros, eiusque res ac rationes, quoad poteritis, adiuturos:

DEIN honorem eum, quem in vos collaturus sum, integrum incolumemque servaturos:

POSTREMO doctrinam, qua vos nunc polletis, cum industria vestra culturos et cum omnibus incrementis, quae progrediente tempore haec ars ceperit, aucturos et in prosperitatem hominum studiose conversuros, denique cunctis officiis, quae probum medicum sponcioni Hippocraticae obtemperantem decent, ea quae par est humanitate erga quemcunque functuros esse; HAEC VOS EX ANIMI VESTRI SENTENTIA SPONDEBITIS AC POLLICEBIMINI?

One by one, medical graduates take the pledge on the mace: SPONDEO AC POLLICEOR

Promotor:

Itaque iam nihil impedit, quominus honores quos obtinere cupitis, vobis impertiamus.

Ergo ego promotor rite constitutus vos ex decreto ordinis mei medicinae universae doctores creo, creatos renuntio omniaque medicinae universae doctoris iura ac privilegia potestatemque universam artem medicam exercendi in vos confero. In cuius rei fidem haec diplomata Universitatis Carolinae sigillo firmata vobis in manus trado.

MASTER'S PLEDGE

Promotor:

Dear students, you have successfully passed all examinations prescribed by law to examine the knowledge of those who apply for the degree of the Doctor of Medicine.

You are now approaching us with a request to award you on this great occasion the degree you apply for.

Firstly, however, you must take the solemn pledge that you will always behave in the way enjoined by this honorable degree you are going to be awarded as well as in accordance with our expectations.

You shall therefore pledge to:

First of all, keep this university, which shall award you a doctor's degree, in your grateful memory, and support its activity and interests as much as you can; Next, preserve the degree I shall shortly bestow on you untarnished and in good repute. Finally, earnestly advance the knowledge you have acquired, to keep learning and ceaselessly enlarge your knowledge with new findings and

discoveries, and to turn your knowledge into good use for the advance of humankind, and to fulfill all your duties as any and every doctor of medicine should according to Hippocrates' oath, and to proceed and approach everybody with proper humanness. Do you take this pledge upon your conscience?

One by one, graduates take the pledge on the mace: I promise and swear.

Promotor:

Now there is nothing which would prevent us from awarding you the degree you wish to achieve.

Therefore, I, the legally appointed promotor of the Faculty, by the power of my office award you doctors of general medicine and publicly announce your degree and confer upon you all the rights and privileges of the doctors of general medicine, including the practice of medical profession. To prove this, please accept your official diplomas with the seal of Charles University.

STUDY LEGISLATION AND RULES

Two types of legislation apply to students of 3FM CU:

1. RULES FOR THE ORGANIZATION OF STUDIES apply to students in the credit study system

2. STUDY AND EXAMINATION REGULATIONS apply to students in the non-credit study system

RULES FOR THE ORGANIZATION OF STUDIES AT 3FM

Since the beginning of year 2006, an amended version of the Higher Education Act has been in force, affecting among others the study rules of higher education institutions. In accordance with the amendment, individual faculties no longer have their respective Study and Examination Regulations but they all abide by uniform regulations of their university.

Charles University approved of its new Study and Examination Regulations on 2 June 2006 (full text is available on the University web pages - www.cuni.cz). As the variability of study programmes at respective Faculties would make this document overwhelmingly extensive with all details on study organization, the Faculties outlined their respective Rules for the Organization of Studies that provide details on organization of studies, achievement of credits and examination procedures.

The Rules for the Organization of Studies at 3FM CU consist of two parts. The first part points out actual study conditions at the Faculty - since the academic year 2006/2007 freshly enrolled students will face a new credit system, subjects are divided into 3 groups of compulsory, compulsory optional and elective, every student must achieve a minimum number of European credits in a given academic year in order to proceed to further studies. The obligation to follow a certain sequence of subjects is also explained there.

The second part of the Rules describes the complete study trajectory from enrolment until graduation. It states the procedure for publishing credit and examination conditions including the requirement for obligatory attendance of given study activities. The proper examination procedure is put forward along with variations for examinations in English.

The Rules for the Organization of Studies were adopted by the Academic Senate of the Third Faculty of Medicine on 10 May 2006 and approved of by the Academic Senate of the University.

Under the sections 27 (1b) and 33 (1e) of the Act No. 111/1998 Coll., on Higher Education and Changes in and Amendments to other Acts (Higher Education Act), in the valid version, and under the section 3 (1b) of the Statute of the Third Faculty of Medicine, the Academic Senate of the Third Faculty of Medicine has adopted the following Rules for the Organization of Studies at the Third Faculty of Medicine, as an internal regulation of the Faculty:

Article 1

Introductory provisions

These Rules for the Organization of Studies at the Third Faculty of Medicine of Charles University (hereinafter "the Rules") establish according to art.19 par.1 and 2 and related provisions of the Study

and Examination Regulations of Charles University in Prague (hereinafter "the University") requirements of study programmes carried out at the Third Faculty of Medicine (hereinafter "the Faculty") and define details of study organization at the Faculty.

PART I

REQUIREMENTS OF BACHELOR AND MASTER STUDY PROGRAMMES ACCORDING TO THE STUDY AND EXAMINATION RULES OF THE UNIVERSITY

Article 2

Sections of study programmes

(Cf. art. 4 par. 5 of the Study and Examination Regulations of the University)

1. Sections of study programmes are years.
2. The study of Master's programme „General Medicine“ consists of three cycles:
 - I. Basic Biomedical Sciences, II. Principles of Clinical Medicine, III. Clinical Preparation.

Article 3

The proportion of European credits for elective subjects in study assessment

(Cf. art. 4 par. 10 of the Study and Examination Regulations of the University)

The proportion of European credits (hereinafter "ECs") acquired by a student in Bachelor's or Master's programme for elective subjects in relation to a normal number of ECs in respective study assessment is 15 per cent. Any surplus ECs for elective courses may be included upon the Dean's decision.

Article 4

Minimal number of European credits

(Cf. art. 4 par. 11 of the Study and Examination Regulations of the University)

1. A student advances into higher study sections on two conditions:
 - a) the student must achieve a minimum number of credits for a given study section;
 - b) the number of non-achieved obligatory subjects must comply with criteria for a repeated enrolment for the subject (cf. art.10 par. 1)
2. Minimal number of ECs:
 - a) for the enrolment into the second and third section of study programme „General Medicine“ is 45 and 109 (*69) ECs respectively, achieved in compulsory and elective subjects;
 - b) for the enrolment into the fourth section of study programme „General Medicine“ is 172 ECs;
 - c) for the enrolment into the fifth and sixth section of study programme „General Medicine“ is 228 (*185) and 285 ECs respectively;
 - d) for the enrolment into the 7th - 11th section of study programme „General Medicine“ is 360 ECs.
 - e) for the enrolment into the second and third section of Bachelor study programmes is 49 and 110 (*95) ECs respectively;
 - f) for the enrolment into the 4th - 6th section of Bachelor study programmes is 180 ECs.

Minimal number of ECs listed in par.2 in brackets applies to students who repeatedly enrolled for a compulsory subject and did not advance to a higher study section.

Article 5

Individual study plan

(Cf. art. 4 par. 12 of the Study and Examination Regulations of the University)

No details on individual study plan are provided.

Article 6

Forms of study, transfers

(Cf. art. 4 par. 14 of the Study and Examination Regulations of the University)

No details on combined study in programmes at the Faculty and on transfers between full-time and combined study within the same study programme are provided.

Article 7

A change of study plan in course of interrupted studies

(Cf. art. 5 par. 6 of the Study and Examination Regulations of the University)

If a student continues to study after an interruption during which a study plan has changed, the continued study runs in accordance with the currently valid study plan.

Article 8

The right to enrol for a subject

(Cf. art. 6 par. 2 of the Study and Examination Regulations of the University)

1. A subject is defined according to art. 6 par.1. of the Study and Examination Regulations of the University.
2. The right to enrol for a subject taught at the Faculty is affected by
 - a) a study plan of a study programme implemented at the Faculty, if the former requires or rules out the subject enrolment cf. art. 6 par. 5 a), c) or e) of the Study and Examination Regulations of the University, in case the subject is listed in the given study programme as compulsory or compulsory optional;
 - b) capacity reasons cf. art. 6 par. 6 of the Study and Examination Regulations of the University; in such a case a preference is given to students who enrol for the subject in accordance with a recommended study plan;
 - c) non-delivery of a medical certificate on a due date set by the Dean confirming the student's competence to attend the given subject;
 - d) no teaching of the subject in a given academic year.
3. An achievement of an enrolled subject is conditioned by an achievement of another subject(s). The sequence of subjects is given in Study plans of 3FM.
4. The achievement of subject means a successful completion of subject study in the form of colloquium, credit and examination (cf. art. 6 par. 9 of the Study and Examination Regulations of the University). For subjects taught at our faculty, a colloquium is a prerequisite for a credit pursuance or award and similarly a credit is needed for the pursuance of an examination.

Article 9

Repeated enrolment for a subject

(Cf. art. 6 par. 7 of the Study and Examination Regulations of the University)

1. A repeated enrolment for a compulsory subject completed by a credit or an examination is permitted on condition of achieving at least the minimal number of credits in the given study section in the following manner:
 - a) in the Master's programme :
 - Cycle I: 3 subjects
 - Cycle II: 3 subjects
 - Cycle III: 3 subjects
 - b) In the Bachelor's programmes, the repeated enrolment for a compulsory subject is allowed only three times during the whole course of studies.
2. In case of the repeated enrolment of subject completed by a credit or an examination the students repeat only the obligations within the given subject that they did not complete in the previous study section.
3. The repeated enrolment for a subject listed as compulsory in a respective study plan is possible only once and exclusively within the immediately following study section when the subject is taught.
4. The repeated enrolment for any subject listed in any study plan of any study programme as compulsory optional is ruled out.
5. The repeated enrolment for a subject taught at the faculty listed as compulsory optional in a respective study plan is ruled out unless stated otherwise in the subject annotation.

Article 10

Credits

(Cf. art. 6 par. 10 of the Study and Examination Regulations of the University)

A credit is the prerequisite for taking an examination or it is an independent form of study assessment in subjects taught at the Faculty. Details are set in Part II.

Article 11

Taking parts of State Final (Rigorous) Examinations

(Cf. art. 7 par. 7 of the Study and Examination Regulations of the University)

1. The number of European credits required for taking any part of the State Final (Rigorous) Examination (hereinafter “the State Examination”) in Bachelor’s study programmes is 180. The final part of the State Examination shall always be the defense of Bachelor thesis.
2. The number of European credits required for taking any but the final part of State Examination in Master’s study programme is equal to the sum of subject ECs required for the respective part.
3. The defense of dissertation thesis is part and parcel of the State Rigorous Examination.

Article 12

Sum total of European credits in compulsory and compulsory optional subjects

(Cf. art. 7 par. 8 of the Study and Examination Regulations of the University)

The sum total of European credits in compulsory subjects required for taking respective parts of the State Examination in study programmes at the Faculty along with the minimal number of ECs in compulsory optional subjects must not add up to more than 95 % of the sum stated in art.7 par. 8 of the Study and Examination Regulations of the University.

Article 13

Further conditions for graduating with distinctions

(Cf. art. 7 par. 11 of the Study and Examination Regulations of the University)

A further condition for graduating with distinctions in any study programme is the achievement of a regular number of ECs at every assessment of study progress and a regular completion of studies in time not extending over the standard length of study by more than one year.

PART II

DETAILS ON THE ORGANIZATION AND ASSESSMENT OF STUDIES IN BACHELOR’S AND MASTER’S STUDY PROGRAMMES

Article 14

Enrolment to studies

1. Enrolment days are announced by the Dean. They are published in a sufficient advance on the official Faculty noticeboard. The enrolment is terminated 10 working days after the commencement of instruction.
2. Students may apply to the Dean in writing to postpone the enrolment, however only for particularly serious reasons and on condition that they have fulfilled all study obligations required to proceed into the higher study section.

Article 15

Student enrolment into the 1st study section

1. Admitted applicants produce their personal identification card or passport and the original certificate of completed secondary education upon enrolment. Subsequently they fill in the Study Credit Book (hereinafter “the Index”) and sign other documents (the Pledge of Secrecy, the Protocol on Introductory Instruction in Work Safety, the Matriculation Oath) as advised by a Study Division officer.
2. The Study Division gives admitted applicants these forms „Certificate of Entrance Preventive Medical Check-Up“ and „Certificate of Vaccination against Hepatitis B“ (details are outlined in Dean’s guidelines). Having submitted the completed „Certificate of Entrance Preventive Medical Check-Up“, the Study Division issues the stamped Index to the student.

Article 16

Enrolment into further study sections

1. Having fulfilled all study obligations given for the respective study section, the student presents the Index to the Study Division, which checks entries on all enrolled subjects. In case they are all completed as required, the student is enrolled into the following year. The student receives a study plan, a logbook and dining coupons. On request, students can buy a refectory card entitling them to use the refectory in the Faculty Hospital Královské Vinohrady.
2. Other conditions for the enrolment of students in the parallel study programme in English shall be defined in the contract made between the Faculty and the student.

Article 17

Matriculation

1. The date of matriculation ceremony for 1st-year students is announced in a usual manner by the the Study Division. The attendance at the matriculation ceremony is obligatory for all 1st-year students except for those who have already been matriculated at any Faculty of Charles University.
2. Students shall bring their Index to the matriculation ceremony as the Study Division will confirm there that they have taken the Matriculation Oath.

Article 18

Credits

1. Conditions for awarding credits shall be determined by the head teacher of the subject at the latest on the first day of instruction in respective academic year. The conditions shall not be changed during the academic year; in especially well-founded cases the Dean may permit an exception following an approval by the Academic Senate of the Faculty.
2. If attendance at instruction is a prerequisite for credit achievement, then the proportion required cannot be higher than 80 % in any individual instruction form of the subject concerned.
3. If writing a test or a seminar paper is a prerequisite for credit achievement, the teacher publishes the test results no later than 7 work days after the testing; in case of seminar paper, the due date is 10 work days after its submission. The publication of test or paper assessment is done in a manner common at the Faculty (individual personal announcement, electronic mail, noticeboard etc.).
4. In case of oral testing required for the credit achievement, provisions of point 3 are applied adequately.
5. In case that the fulfilment of credit prerequisites is recorded in the Index on another day than the actual day of their achievement, teachers are not authorized to require a personal presence of the student on this occasion. In the case mentioned above, the date of credit award entered into the Index is the actual day of credit achievement.
6. Heads of Departments or persons authorized by them enter the award of credits immediately into the „Study Information System“. After the termination of examination period, they print out the protocol on credits awarded, and send the signed document to the Study Division of the Faculty.

Article 19

Examinations

1. Heads of Departments offer a sufficient number of examination days so that a total examination capacity exceeds the number of students to be examined by at least 50%; they set the maximum number of students who can sign for given days. Further, they appoint examiners and their substitutes for respective days. The provision of the first sentence does not substantiate a request for a special examination day. Examinations of full-time students take place on work days as a rule. Heads of Departments also determine if students are obliged to bring certain equipment for the examination (white coat, stethoscope etc.).
2. Examinations can be carried out by professors, docents (associate professors) or other faculty authorized by the Dean. This has no effect on provisions stating the qualification of examiners for the State Examinations.

3. The beginning of an examination shall be scheduled so that it does not start prior to 8 o'clock and later than 18 o'clock. Exceptions to this rule are allowed only with a written consent of the student examined.
4. The examinations of full-time students shall be so organized as to finish by 20 o'clock.
5. The examiner assigns questions to students in the following manner: in oral examination by a draw, in written examination by a randomly assigned test or a draw. The question must come from a list of topics or questions published previously in accordance with Faculty customs.
6. The student has the right to an adequate preparation time for the examination. The Department provides enough space for this preparation. The student does not leave the preparation /examination room in the time between question assignment and actual examination. The exception to the rule is permitted by the examiner.
7. If the student withdraws from the examination prior to the question assignment, s/he is not graded. If s/he withdraws after the assignment, then the grade awarded is „failed“.
8. If the student uses proscribed aids (incl. a mobile phone or a camera) during the preparation or the actual examination, the examiner terminates the examination, grades the student's performance as „failed“ (neprospěl) and reports the breach of discipline to the Dean of Faculty. The breach is processed according to the Code of Discipline applicable to students of the Faculty.
9. Heads of Departments or persons authorized by them enter the examination results into the „Study Information System“. After the termination of examination period, they print out the protocol on classification of examinations, and send the signed document to the Study Division of the Faculty.
10. The “failed” grade is not recorded into the Index, only the date of the examination without signature. In such a case the student has not achieved the required form of study assessment. When the study progress has to be counted, all grades from all examinations and all re-sittings are included.

Article 20

State Final Examinations and State Rigorous Examinations

1. It is not permitted to schedule dates for any part of the State Examinations in a manner interfering with a regular instruction of a given student group in the subsequent instruction block. The State Examinations can be scheduled only on working days.
2. The beginning of State Examination shall be scheduled so that it does not start prior to 8 o'clock and later than 18 o'clock. Exceptions to this rule are allowed only with a written consent of the student examined.
3. The examinations of full-time students shall be so organized as to finish by 20 o'clock.
4. The chairperson of examination committee writes a protocol on the course and result of the respective part of State Examination and State Final Examination and delivers the document to the Study Division of the Faculty no later than on the following work day. At the same time, the Head of respective Department or a person authorized by them enter the examination results into the „Study Information System“ on the day of examination. After the termination of examination period, they print out the protocol on classification of State Examinations and State Final Examination, and deliver the signed document to the Study Division of the Faculty.

Article 21

1. No form of student discrimination due to their age, gender, nationality, country of origin, family status, skin colour, religious belief, health condition, neither any form of humiliation of students by examiners or vice versa are permissible.
2. If a student of English curriculum is being examined, any communication between the student and examiner(s) including the assignment of examination question as well as any communication among examiners in the student's presence shall be conducted solely in English. Students' communication with patients during a practical examination shall always be conducted in Czech.
3. Demands or acceptance of any material support of any examination from students (e.g. refreshment) is inadmissible.

Article 22

Completion of study

1. The student returns the following documents to the Study Division: the Index for review, Charles University Student Card with the Faculty coupon, the refectory card for use in the FNKV refectory. The student receives a discharge sheet where the following items have to be certified:
 - a) Certificate of Obligatory Discharge Medical Check-Up, signed and stamped by a physician authorized to run preventive check-ups of university students;
 - b) Certificate of Centre of Scientific Information (SVI 3FM) that the student has no obligations to the library of SVI 3FM, signed and stamped by authorized SVI staff;
 - c) The student's declaration that
 - all obligations associated with the study at the 3FM are fulfilled;
 - s/he will inform the respective health insurance company of study completion within 8 days.
2. The student returns the completed discharge sheet to the Study Division. Having completed all the above-mentioned administrative tasks, the student may receive a diploma.
3. Graduation ceremonies are scheduled and announced by the Study Division. Scheduling respects the numbering of study groups in the final year, the number of students in groups and the capacity of Magna Aula in Carolinum so that usually circa 3 groups graduate in the same time.

PART III

Article 23

Temporary and Final Provisions

1. The rights and obligations of students enrolled to study at the Faculty before these Rules came to force in the field of study matters are governed by current Study and Examination Regulations of the Faculty, unless the Study and Examination Regulations of the University state otherwise.
2. The study organization for students enrolled to study at the Faculty before these Rules came to force are governed by current Study and Examination Regulations of the Faculty.
3. The Rules herein were approved by the Academic Senate of the Faculty on 10 May 2006.
4. The Rules herein shall come into force on the date of approval by the Academic Senate of the University.
5. The Rules herein shall become effective five days after coming into force except for Parts I-III, which shall become effective on the first day of the academic year 2006/2007.

STUDY AND EXAMINATION REGULATIONS OF THE 3FM CU

- valid for students in the non-credit study system, i.e. those enrolled no later than 31 May 2006

Under sections 27 (1) (b) and 33 (2) (f) of the Act No. 111/1998 Coll., on Higher Education and Changes in and Amendments to other Acts (Higher Education Act), the Academic Senate of the 3rd Faculty of Medicine has adopted the following Study and Examination Rules of the 3rd Faculty of Medicine, as an internal regulation of the Faculty.

PART I.

GENERAL PROVISIONS

Article 1

Introductory Provision

These Rules shall govern the course of study at the 3rd Faculty of Medicine of Charles University (hereinafter "the Faculty")

Article 2

University Education

1. University education shall be acquired by studying on an accredited programme of study according to a study plan in a prescribed form. Instruction shall be provided by professors,

associate professors (Associate Professors) and senior lecturers, scientific Staff of the faculty and outstanding external specialists from scientific establishments and from the practice. The preparation and evaluation shall be guaranteed by a guarantor, a board of guarantors or a Subject Area Council established under Art. 23 of the Constitution of the University.

2. The faculty shall organise Bachelor's, Master's and Doctoral programmes of study.
3. The Bachelor's programme of study shall take the form of full-time and/or combined study. The study shall be completed in due form by a State Final Examination, which shall include the defence of a Bachelor's thesis. The graduates shall be awarded the academic degree "Bachelor" (abbreviated to "Bc." in front of the name).
4. The Master's programme of study:
 - a) The Master's programme of study in medicine shall take the form of full time study. The study shall be completed in due form by a State Rigorous Examination, which shall consist of several parts. The graduates shall be awarded the academic degree "Doctor of Medicine" (abbreviated to "MUDr." in front of the name).
 - b) Other accredited Master's programmes of study may follow previous Bachelor's programmes of study, or they may be independent. The programmes of study shall take the form of full time and/or combined study, and depending on the form of study may involve a shorter period of study. The study shall be completed in due form by a State Final Examination, which shall include the defence of a Master's thesis. The graduates shall be awarded the academic degree "Master" (abbreviated to "Mgr." in front of the name).
5. The Doctoral programme of study shall take the form of full time and/or combined study. The study shall be completed in due form by a State Doctoral Examination and the defence of a Doctoral dissertation. The graduates shall be awarded the academic degree "Doctor" (abbreviated to "Ph.D." behind the name). The study on the Doctoral programme of study shall be governed by a separate internal regulation¹.
6. The programmes of study shall be specified in study plans. The study plan shall determine mainly study obligations for each academic year.
7. Full-time study: In the study plan the instruction shall be organised in the form of lectures, tutorials, seminars, courses, practical classes, laboratory classes, consultations, conferences and independent study, which shall be held according to the regular schedule.
8. Combined study: In the study plan the instruction shall be organised in the form implementing both full-time study and distance learning principles, possibly with the use of multimedia instruction.
9. Students on the programme of study for foreigners, which is held in a foreign language, shall be obliged to pay a tuition fee under s. 58 (5) of the Higher Education Act, Art. 26 (4) and Art. 33 (1) C of the Constitution of the University, and Art. 1 (3) and Art. 2 (5) of the Appendix No. 6 to the Constitution of the University.
10. Students of Charles University in Prague who have not registered at the Faculty may attend all lectures without any restriction. Attendance at other forms of instruction shall be subject to approval of the respective teacher. Students may have their study results assessed only if they have the appropriate study obligation registered in their Study Credit Book and confirmed by the Study Department of the Faculty.

Article 3

Organisation of Study

1. The academic year shall last twelve calendar months. Its commencement shall be determined by the Rector.
2. The academic year shall be divided into a winter term, a summer term and vacations. The dates of commencement of terms and vacations shall be determined by the Rector.
3. The commencement of instruction, examination period, practical trainings and other details concerning the division of a term shall be determined by the Dean of the Faculty upon consultation with the Rector.

¹ Rules of Doctoral Programmes of Study of the 3rd Faculty of Medicine

4. If the study plan provides so, compulsory practical training and optional physical education courses may be done during vacations. Upon agreement with the relevant teachers, students may fulfil their study plans during vacations.
5. An examination may be held during vacations provided that it has been approved by the teacher (the board) and the student.

PART II.

STUDY ON BACHELOR'S AND MASTER'S PROGRAMMES OF STUDY

Article 4

Course of Study

1. An applicant shall become a student on the date of registration at the University. S/he shall have the right to attend all forms of instruction at the Faculty within the registered study plan from that date. Registration shall be held on dates determined by the Dean of the Faculty.
2. The Faculty shall issue to the student a Study Credit Book and a Student Identity Card during registration. Students shall make a matriculation oath; the dates of matriculation ceremonies for individual faculties shall be determined by the Rector.
3. Any student shall have the right to attend lectures within the University.
4. Registration for each year of study shall be carried out in the time period determined by the Dean. The announcement of registration shall be published on the official noticeboard not later than 2 months before the registration date. On registration for a year of study the student shall be obliged to submit her/his Study Credit Book so that the fulfilment of her/his study obligations can be checked. The student who has fulfilled study obligations entered in her/his Study Credit Book may register for the following year. Another condition for registration may be the fulfilment of other requirements resulting from the regulations of healthcare establishments; these requirements shall be provided in the Dean's measure. Other conditions for registration of students on the parallel programme of study in English shall be defined in a contract made between the Faculty and the student.
5. A study obligation shall be defined as passing an assessment of study in the form prescribed in the study plan (Art. 6 (1)).¹
6. The student shall enter in her/his Study Credit Book the compulsory part of the study plan for the individual year of study: compulsory and elective study obligations. The fulfilment of all entered study obligations shall be checked during registration for further years of study according to cl. (1). Students of Charles University in Prague, who have not registered at the Faculty, may submit a written application for entering the subjects from study plans implemented by the Faculty. If the Dean approves their application, the Study Department shall confirm the entry into the Study Credit Book.
7. Registration for a year of study shall be terminated 10 working days after the commencement of instruction. A student may submit a written application for the postponement of the date of registration, however, only for particularly serious reasons (health, personal, stay abroad, etc.) and s/he must have fulfilled all study obligations required for progression to the higher year of study before the specified date of commencement of instruction.
8. The names of students who have failed to register without an excuse shall be published on the official noticeboard as a summons to alternative registration. The dates of alternative registration shall be published on the official noticeboard not later than 10 days before the alternative registration. The failure to register after the summons shall be considered as a case under Art. 12 (1) (b). This provision shall not apply if the student failed to register on the alternative date for serious reasons.
9. A student who has failed to fulfil no more than two study obligations in a year of study may be permitted by the Dean to repeat the year of study upon a written application filed not later than 10 days before the termination of registration. The Dean may waive the default of time in justified cases. If a student has not fulfilled more than two study obligations in a year of study, or if s/he has not been permitted to repeat the year of study under the first sentence of this clause, such situation shall be considered as a case under Art. 12 (1) (b).

10. The repetition of a year of study may not be permitted more than twice in the whole course of study; however, the same year of study may not be repeated twice. In the repeated year the student shall be obliged to fulfil all study obligations in subjects which have been the cause of repetition. Students of the parallel programme of study in English shall pay the tuition fee for the repeated year of study only for study obligations which have been the cause of repetition.
11. If a student files an application for transfer from one form of study to another within the same Bachelor's or Master's programme of study, the Dean shall approve the application unless s/he finds any obstacles to the arrangement of instruction for the student in the requested form of study. The application must be filed at least three months and not later than two months before the end of the respective academic year. One unit of study must always be completed only in one form of study. The provisions of Art. 9 shall not be prejudiced by this clause.

Article 5 **Interruption of Study**

1. Studies on a programme of study may be interrupted more than once.
2. The Dean may interrupt study of a student upon the student's written application or on her/his own initiative if this is necessary to prevent damage threatening the student, provided that the origin of the damage is not related to the previous fulfilment of study obligations. If a student applies for interruption of study after s/he has proved the fulfilment of obligations in the given unit of study and before s/he has registered for the following unit of study, and unless disciplinary proceedings have been initiated against the student, the Dean shall approve such application; study may be interrupted in this way for the minimum period of one term. Cl. (8) shall not be prejudiced by this provision.
3. The Dean shall interrupt study on her/his own initiative to the student who has been under the obligation to pay tuition fees under s. 58 (3) or (4) of the Higher Education Act and has not paid the fees within 15 days from the delivery in her/his own hands of notice to pay such fees; this provision shall not apply if it appears that there is a substantial fact which would result in the Dean's proposal for the reduction, waiver or deferral of payment of the fees. In such case the proposal shall be delivered to the Rector without undue delay. In the notice to pay the Dean shall inform the student of the right to state facts suggesting that the duty to pay has not arisen or ceased to exist, or that there is a justification for the reduction, waiver or deferral of payment of the fees. If the student applies for a personal interview before the decision is issued, s/he shall be invited to an interview without delay.
4. Under cl. (3) study shall be interrupted for the period remaining to the expiration of the maximum duration of study. If the fees are paid and the person applies for the termination of interruption of study, the Dean shall approve the application and decide to terminate the interruption of study not later than on the last day of the term in which the application was filed or on the last day of the academic year, if the application was filed during the summer term or vacations.
5. On the date of interruption of study the student shall lose the status of student under the Higher Education Act, and time periods for the fulfilment of study obligations shall neither start nor continue. Upon termination of interruption of study, the Dean shall decide the assignment of the student to the appropriate unit of study, if necessary. If the student's study plan was changed during the interruption of her/his study, the Dean shall determine which study obligations the student must fulfil as well as deadlines for their fulfilment according to the Study and Examination Rules and the respective programme of study; in this connection the Dean may also impose the obligation on the student to take differential examinations in a prescribed period of time.
6. Upon expiration of the period of time for which the study was interrupted, the person to whom the study was interrupted shall acquire the right to re-register for study. If the reasons for interruption of study no longer apply, the Dean may terminate the interruption of study upon written application filed by the person to whom the study was interrupted even before the expiration of the period of interruption. If the person does not register within the given period of time, the provisions of Art. 4 (8) shall apply.
7. With the exception of cases where the reasons are particularly serious, mainly health reasons, study may not be interrupted before the completion of the first year of study.

8. The longest overall period of interruption of study² shall be such period, which together with the real period of study shall not exceed the maximum duration of study. The real period of study shall be the period which has elapsed from the date of registration at the University minus the period of time for which the study was interrupted.
9. If a student on a Doctoral programme of study applies for interruption of study the Dean shall approve such application, unless disciplinary proceedings have been initiated against the student in which the Disciplinary Commission has proposed the sanction of expulsion from study, the Dean has neither mitigated the sanction by her/his ruling nor referred the case back to the Commission, or the Rector has cancelled the Dean's ruling. Study may be interrupted for a minimum period of one year. The longest overall period of interruption of study shall be five years.

Article 6

Forms of Assessment of Study

1. The forms of assessment of study shall be continuous assessment, credits, examinations, State Final Examinations, State Rigorous Examinations, the defence of a dissertation thesis and State Doctoral Examinations.
2. Credits shall be awarded upon the fulfilment of requirements specified for a given subject. If a credit and an examination are prescribed by the study plan, then obtaining the credit shall be the condition for taking the examination. Conditions for awarding credits shall be determined by the head teacher of the subject at the beginning of instruction and s/he shall publish them in the usual manner. As a rule, the conditions shall not be changed during the academic year; in especially well-founded cases the Dean may permit an exception following proposal by the Academic Senate; her/his decision shall be final. The teacher shall enter the word "započteno" ("credit") in the Study Credit Book. Where a credit is not awarded, nothing shall be entered in the Study Credit Book.
3. The forms of examination shall be written, oral, practical and combined. A combined examination shall consist of at least two forms mentioned in the first sentence. In all forms of examination the student may require detailed information concerning the results (including the possibility to examine the results of the written part of examination - tests, written papers, essays, etc.).
4. The form of examination and basic requirements for the examination shall be determined by the head teacher of the subject not later than 10 weeks before the commencement of the examination period, the dates of examinations shall be determined not later than 4 weeks before the commencement of the examination period.
5. The results of examinations, State Final and State Rigorous Examinations shall be marked by the examiner or board of examiners, using the following scale of grades:
 - výborně (excellent) (1)
 - velmi dobře (very good) (2)
 - dobře (good) (3)
 - neprospěl/a (failed) (4)
6. The examiner or board of examiners shall enter the result in the Study Credit Book together with the date of examination and their signature. The result "neprospěl/a" (failed) shall not be entered in the Study Credit Book, only the date of examination without a signature shall be entered. Classification by grade "neprospěl/a" (failed) shall mean that the student has not passed the required form of assessment of study.
7. A student may not take any exam more than three times, i.e. s/he shall have the right to two resit dates; no extraordinary resit date³ shall be permitted. On Doctoral programmes of study a student may not take an exam more than twice, i.e. s/he shall have the right to only one resit date.
8. The number of examination dates must correspond to the number of students and the dates must be spread over the whole examination period. The head teacher of the subject shall announce a sufficient number of examination dates, so that the overall examination capacity shall exceed at

² S. 54 (1) of the Higher Education Act

³ S. 68 (3) (a) of the Higher Education Act

least by 50% the number of students to be examined, and s/he shall determine the maximum number of students that can register for the given date. The calculation of number of examination dates shall be based on the list of students in the respective part of instruction provided by the Study Department. The head teacher of the subject shall also assign examiners and their alternates for individual dates. The provision in the first sentence above shall not constitute the right to arrange for a special examination date. The provision in the first sentence of cl. (7) shall not constitute the right to arrange for a special examination date.

9. The Dean may, on her/his own initiative or upon request of the teacher or student, decide that the examination shall be taken before a board, which shall be nominated by him/her.

Article 7

State Final Examinations and State Rigorous Examinations

1. State Final Examination and State Rigorous Examination (hereinafter “the State Examination”, the abbreviated term shall also designate a part of the examination) shall be taken before a Board of Examiners. The State Examination and the announcement of its results shall be public. A record of the course of the State Examination shall be taken and it shall be signed by the President or by an authorized member of the Board acting on her/his behalf and by all the present members of the Board. At least three members of the Board must be present.
2. The President and members of the Boards shall be appointed from among Professors, Associate Professors and specialists approved by the Scientific Council of the Faculty by the Dean, who shall also dismiss them. Other members of the Board shall be specialists appointed by the Ministry of Education, Youth and Sports of the Czech Republic.
3. The State Rigorous Examination shall consist of individual parts corresponding with the programme of study. The State Final Examination shall consist of two parts; the first part shall be the defence of thesis.
4. State Examinations shall be taken on dates determined by the Dean of the Faculty, who shall decide a regular date and two resit dates. The dates shall be published on the official noticeboard of the Faculty not later than one month before the examination.
5. A student may register for a State Examination, provided that s/he shall have fulfilled the relevant study obligations prescribed in the study plan. The student shall register for the announced dates of the State Examination with the secretariat of the centre or clinic using the appropriate form.
6. A student must take the State Examination not later than two years from the first day of the calendar month following the day of her/his fulfilment of the requirements for taking the State Examination. The provision of Art. 5 (5) shall not be prejudiced by this clause. If the student does not pass the State Examination within the given period of time, the situation shall be considered as a case under Art. 12 (1) (b). The day of fulfilment of the requirements according to the first sentence of this clause shall be defined as the first date announced for the respective State Examination for which the student may register under cl. (5).
7. If a student is classified by the grade “neprospěl/a” (failed) on the second resit of the State Examination, the situation shall be considered as a case under Art. 12 (1) (b).
8. A student who failed to take the State Examination (or its part) or its resit on the given date and whose absence was not excused at least 5 working days before the date of the examination shall be permitted an alternative date only upon agreement with the President of the Board. The same procedure shall apply for the determination of the first resit.
9. A withdrawal from a State Examination after its commencement on grounds of momentary indisposition shall only be permissible unless the student has been set examination questions. If the student has been set the questions and s/he withdraws from the examination, s/he shall be classified by the grade “neprospěl/a” (failed).
10. The student who passed State Examinations on regular dates (three weeks before the date of graduation ceremony) and fulfilled other possible requirements specified in the Dean’s measure shall be included on the list of graduates for the regular date of graduation ceremony determined by the Rector of the University.
11. The overall result of a State Examination shall be classified by the following scale of grades:
 - výborně (excellent) - up to the average 1.20
 - velmi dobře (very good) - up to the average 2.00

- dobře (good) - from the average 2.01

The final marking of the State Examination of the student shall be announced by the Board consisting of Presidents or members of Boards for individual parts of the State Examination. The Board shall be summoned by the Dean through the Study Department.

12. The overall result of study shall be assessed by the following scale of grades:

- prospěl s vyznamenáním (passed with distinctions)
- prospěl (passed)
- neprospěl (failed)

13. A student shall graduate with distinctions if:

- the average mark from the 1st to the 5th year of study did not drop below 1.2,
- no part of her/his state examination was resat,
- he received no “dobře” (good) grades,
- the overall result of her/his State Examination was “excellent” (1).

If the student received a “good” grade in one subject from the 1st to the 5th year of study, the Dean may allow a resit upon the student’s request.”

14. A State Examination may not be taken if the student is subject to disciplinary proceedings in which the Disciplinary Commission proposed the sanction of expulsion from study, the Dean neither mitigated the sanction by her/his ruling nor returned the issue back to the Commission and the Rector did not cancel the Dean’s ruling.

Article 8

Individual Study Plan

1. The Dean may permit a student upon her/his written application to study according to an individual study plan (hereinafter “ISP”), which shall provide mainly the arrangement of the compulsory part of study while maintaining the coherent order of subjects.
2. Study according to an IPS shall be permitted by the Dean for the period of an academic year.
3. Upon termination of study according to an IPS, the Dean shall decide on the assignment of the student to the appropriate year of study. If a student has not fulfilled the compulsory part of study according to the ISP, the Dean may permit the student upon her/his written application to repeat the year of study under the same conditions as provided in Art. 4 (9). If the student has not fulfilled her/his obligations or if s/he has not been permitted the repetition of the year of study, the situation shall be considered as a case under Art. 12 (1) (b).

Article 9

Maximum Duration of Study

1. The maximum duration of study on a Bachelor’s programme of study shall be the standard period of study plus three years.
2. The maximum duration of study on a Master’s programme of study shall be the standard period of study plus five years. The maximum duration of study on a Master’s programme of study, which follows a Bachelor’s programme, shall be the standard period of study plus three years.
3. The maximum duration of study on a Doctoral programme of study shall be the standard period of study plus five years, however, full time study may not exceed three years (Study and Examination Rules of the University, Art. 9 (1)).
4. If a student fails to complete her/his study within the period of maximum duration of study, the situation shall be considered as a case under Art. 12 (1) (b).

Article 10

Recognition of Study Obligations

Upon written application of the student the Dean may recognize the fulfilment of study obligations if the student has fulfilled similar study obligations at a higher education institution in the Czech Republic or abroad in recent ten years.

PART III.
COMPLETION OF STUDY

Article 11

Due Form of Completion of Study

1. Study shall be concluded in due form by the completion of study on the relevant programme of study; the day of completion of study shall be the date of passing a State Final Examination or a State Rigorous Examination or its final part.
2. Completion of study in due form and the acquisition of the respective academic degree shall be certified by a higher education Diploma specifying the programme of study, or discipline of study, which shall be awarded to graduates by the University at graduation ceremony, and a Certificate of State Final Examination, State Rigorous Examination or State Doctoral Examination and the defence of Dissertation thesis. If a graduate fails to attend the graduation ceremony, the University shall award her/him the higher education Diploma in the manner determined by the Rector. Upon application the graduate shall receive an appendix to the Diploma; usually, the appendix shall be a certification of examinations passed and marks achieved.
3. Graduates in Bachelor's programmes of study shall be awarded the degree "Bachelor" (abbreviated to "Bc." in front of the name); graduates in Master's programmes of study in medicine shall be awarded the degree "Doctor of Medicine" (abbreviated to "MUDr." in front of the name); graduates in Master's programmes of study other than medicine shall be awarded the academic degree "Master" (abbreviated to "Mgr." in front of the name). Graduates in Doctoral programmes of study shall be awarded the degree "Doctor" (abbreviated to "Ph.D." behind the name).

Article 12

Other Forms of Termination of Study

1. Study shall be also terminated as a result of:
 - a) withdrawal from study; the day of termination of study shall be the date of delivery of the student's written notice of her/his withdrawal from study.
 - b) failure to fulfil the requirements resulting from the programme of study under these Rules; the day of termination of study shall be the date of legal effect of the decision on termination of study. A failure to fulfil the requirements shall be a case under Art. 4 (8) and (9), Art. 7 (6) and (7), Art. 8 (3) and Art. 9 (4).
 - c) withdrawal of accreditation for a programme of study; the day of termination of study shall be the date of expiry of time determined in the decision of the Ministry.
 - d) termination of accreditation for a programme of study; the day of termination of study shall be the date of announcement of cancellation of a programme of study by the University.
 - e) expulsion from study under the Code of Discipline; the day of termination of study shall be the date of legal effect of the decision on expulsion from study.
2. Decisions under cl. (1) (b) and (e) shall be made after the respective situation has arisen.
3. Upon written application of the student who has terminated her/his study for reasons given in cl. (1) the Dean shall issue a transcript of fulfilled study obligations, stating for how long the student has studied and that s/he has not completed study in due form.

PART IV.

DECISION MAKING ON THE RIGHTS AND OBLIGATIONS OF STUDENT

Article 13

Rights and Obligations of Students

1. Rights and obligations of students shall be provided in sections 62 and 63 of the Higher Education Act, the Constitution and internal regulations of the University and the Faculty.

2. Students shall be obliged not to disclose any information relating to individual patients which they have learned in connection with their study, including facts learned from medical documentation.⁴

Article 14

Decision Making on the Rights and Obligations of Students

Decision making on the rights and obligations of students shall be governed by the Higher Education Act and Study and Examination Rules of the University; disciplinary proceedings shall be governed by the Code of Discipline for students of Charles University in Prague and the Code of Discipline of the 3rd Faculty of Medicine; decision making on awarding scholarships shall be governed by the Rules of Scholarships of Charles University in Prague and the Rules of Scholarships of the 3rd Faculty of Medicine.

Article 15

Jurisdiction of Faculty

The procedure in deciding the rights and obligations of students (hereinafter “the procedure”) in the first instance shall take place at the Faculty where the student has been registered.⁵

Article 16

Initiation of Proceedings, Dean’s Decision

1. Proceedings to interrupt study started on the Dean’s own initiative (Art. 5 (2)), proceedings to expel from study under s. 67 of the Higher Education Act and proceedings to set differential examinations under s. 68 (3) (d) of the Higher Education Act shall be commenced on the date of delivery of notice of the commencement of such proceedings to the student.
2. Proceedings concerning failure to fulfil requirements resulting from the programme of study according to the Study and Examination Rules (Art. 13 (1) (b), under s. 68 (3) (f) of the Higher Education Act, shall be commenced on the date of issuing the decision.
3. Proceedings concerning matters not mentioned in cl. (1) and (2) shall be commenced on the day of filing the relevant written application with the Study Department by the student. The application must contain the data necessary for the decision.
4. The Dean shall invite the student to provide additional information or explanations, if necessary. The Dean shall determine reasonable time for that purpose.
5. The Dean shall issue a decision within 30 days of the commencement of the proceedings; the time provided in cl. (4) shall not be included in this period of time. The decision under s. 68 (3) of the Higher Education Act must be executed in written form and it must contain a statement, reasoning and advice of the possibility to apply for a review.
6. Unless it is a decision under the second sentence of cl. (5), the student shall obtain information on the disposal of her/his application at the Study Department during office hours; communication of the information shall be entered in the student’s records kept by the Faculty.

PART V.

AMENDING, REPEALING, COMMON AND FINAL PROVISIONS

Article 17

Amending Provisions

1. Provisions in Part IV. of the Rules herein shall not apply to decision making under s. 68 (3) (a), (e) and (g) of the Higher Education Act.
2. The Dean’s decision under Art. 16 (5) second sentence, and the notice under Art. 16 (1) shall be delivered in the student’s own hands; however, in case of the Dean’s decisions under s. 68 (3) (f) and (h) alternative delivery shall not be permitted.
3. The Dean’s decisions under Part IV. shall be entered in the student’s records kept by the Faculty.

⁴ S. 67b (11) of the Act No. 20/1966 Coll., Health Care Act, as amended.

⁵ S. 51 (2) of the Higher Education Act

4. The decision shall come into force on the day following the lapse of time for filing the application for a review, or on the day following the student's written waiver of the right to file such application, or on the day following the delivery of the Rector's decision.

Article 18 Repealing Provisions

Study and Examination Rules of the 3rd Faculty of Medicine, approved on September 24, 1999 by the Academic Senate of Charles University in Prague, with all the amendments and appendices shall hereby be repealed.

Article 19 Common and Final Provisions

1. The Rules herein were approved by the Academic Senate of the Faculty on June 5, 2003.
2. The Rules herein shall come into force on the date of approval by the Academic Senate of the University.⁶
3. The Rules herein shall become effective on September 29, 2003.

MUDr. David Marx, Ph.D. - Chair of the Academic Senate
doc. MUDr. Bohuslav Svoboda, CSc. - Dean

FEES FOR THE ACADEMIC YEAR 2008/2009 AT 3FM

- Dean's Decree No. 4/2008

1. TUITION FEE FOR THE STUDY IN ENGLISH LANGUAGE

- a) upon payment of the whole amount by **15. 10. 2008** the fee is **290.000 CZK** or upon payment of the whole amount by **15. 11. 2008** the fee is **300.000 CZK**
- b) the fee can be paid in two instalments if applied for by the student and agreed in a contract between him/her and the Faculty: in total **305.000 CZK**

1st instalment: **150.000 CZK** when paid by **15. 10. 2008**

2nd instalment: **155.000 CZK** when paid by **15. 2. 2009**

The student enrolling to the 1st study year is obliged to pay a deposit of **10.000 CZK** by **1st September 2008** at the latest. The deposit is not refundable. It is deducted from the payment of total fee or its 1st instalment.

Fees charged by sending and receiving bank are to be covered by the sender.

The amount received at the faculty account is decisive for regularity of payment.

The fees stated above relate to one study year.

2. FEE FOR ENTRANCE EXAMINATION - STUDY IN ENGLISH LANGUAGE:

Electronic application: 35,- EUR

Payment due by 31.5. 2009

TUTORING SYSTEM

The Board of Tutors serves all students of master's and bachelor's programmes without regard to their study language and year of study. The assignment of the Board is set by the Dean's Board as follows:

1. The tutors help students during the Cycle I to adapt to the university setting and to the way of teaching and learning within the integrated curriculum.

⁶ S. 9 (1) (b) of the Act No. 111/1998 Coll., Higher Education Act, as amended. The Academic Senate of the University approved this internal regulation on June 6, 2003.

2. If needed they arrange contact between students and a responsible vice-dean or other officials of the faculty. They provide for students' orientation in the array of social and psychological services that are available to students. In case of emergency they mediate medical or psychological assistance.
3. They arrange or provide for counseling and guidance to students facing study problems or difficult social situation.
4. They keep students informed about opportunities for student research activities and elective courses.
5. They participate actively in the analysis of feedback and evaluation of faculty teaching process.
6. In the course of the cycle II and III they help students to choose their specialization and coach them toward their future profession.

To summarize, the Board of Tutors serves students for swift and flexible solving of issues relating directly to their study, as well as to organizational and social matters, to the field of student research, and to future job opportunities.

Tutors are at students' disposal usually upon previous appointment, preferably by e-mail. In your own interest do not put off contacts with a tutor while in trouble – delaying a solution usually complicates the matter for students themselves. In case of emergency it is possible to contact the coordinator of tutors MUDr. David Marx, Ph.D. by phone (602 260 244).

STUDENT COUNSELLING CENTRE

at the Department of Child and Youth Health- **building no. 19, 2nd floor, room 306**

CONTACT PERSON

MUDr. Dagmar Schneidrová, CSc., e-mail: dagmar.schneidrova@lf3.cuni.cz

Phone : +420 267 102 340

Consultations: Wednesday 10.00 - 12.00, 13.00 - 16.00, or upon agreement

STUDENT COUNSELLING CENTRE PROVIDES:

- **Study counselling**
 - assistance in solving study issues
 - assistance in identifying an effective learning style
- **Counselling on personal development and problems**
 - assistance in adaptation to new study and living conditions
 - assistance in a difficult personal situation
 - stress management and support of a healthy lifestyle

- **Psychotherapy**

Long-term care aimed at managing :

- anxiety disorders (e.g. examination anxiety, social phobia)
- depressive disorders
- psychosomatic disorders
- eating disorders and other conditions

Stress management programme for university students (Czech and English version on the Faculty website - <http://www.lf3.cuni.cz> (Study Information – Health Care and Social Matters - Student Counselling Centre at the Department of Child and Youth Health) or on <http://www.szu.cz/poradna/uspesnystudent/>

HEALTH CARE FOR STUDENTS OF 3FM

Foreign students should arrange for a health insurance covering the duration of their study at the Third Faculty of Medicine, Charles University in Prague. The insurance policy can be arranged either in their home country or in the Czech Republic at the beginning of their study. All foreign students are obliged to undergo a preventive entrance medical examination at this time, either in their home country or at the **1st Department of Internal Medicine of the Faculty Hospital Královské Vinohrady**. The contact person there responsible for your entrance medical examination and follow-up medical care is **MUDr. Monika Tóthová**. She is to be found in the pavillion G - **1st Department of Internal Medicine - Ambulance of Nefrology** (Praha 10, Šrobárova 50, 3rd floor)

Contact: MUDr. Monika Tóthová

Mobil: 774 918 023

Phone number: 26716 2329, 2314, 2315

E-Mail: tutoth@email.cz; monoto@seznam.cz

Visiting hours:

Monday : 14.00-16.00

Tuesday : 8.00-10.00

Condition of health insurance and payment

Students from EU countries

In case of presenting the European Health Insurance Card, no payment is required. Students from EU *without the European Health Insurance Card* must pay 1 CZK per 1 point.

It is possible to ask the insurance company in a student's home country for reimbursement

Students from non-EU countries

Without health assistance they must pay 3 CZK/1point.

Fees are paid in full on the spot. Receipts will be issued so that students may be reimbursed by their health insurance fund. For case of urgent illnesses when the patient cannot get himself/herself to a

doctor and when transport to a medical facility and urgent treatment is essential, ambulance services are organised. You can request their assistance by telephoning the number 155.

Students – citizens of EU – are entitled to free emergency treatment in the same extent as citizens of the Czech Republic. In case of elective procedures they must receive an approval of their home health insurance fund in advance.

HEPATITIS B VACCINATIONS

It is compulsory for all students to have completed the vaccination against hepatitis B (with an exception to those that had the disease or have a sufficient amount of antibodies against HbsAg higher than 10 IU/l.)

This procedure must be paid directly on the spot.

Hepatitis B vaccinations are compulsory for all students.

1 vaccine (batch).....700,-CZK

(There is necessity of 3 vaccines in interval of time.)

PREVENTION OF HEALTH RISKS

The study of medicine and other health-related fields brings potential risks to health in the course of practical training. Namely there are risks due to infections, ionizing radiation, exposure to toxic substances (e.g. cytostatic drugs) and injuries. Pregnant students must notify their teachers of their condition. A pregnant student must not be exposed to any increased risk of infection anywhere (foremost in the Departments of Pathology, Microbiology, Forensic Medicine, and Infectious Diseases). She must also avoid a risk of ionizing radiation (X-ray and isotope workplaces). Further, she needs to avoid any manipulation with cytostatic preparations (oncology and numerous other clinical settings). Abiding by work safety rules is COMPULSORY for all students. The faculty policy in this field aims for a thorough prevention and total minimization of health risk in the course of study. Any particular problems related to an individual study plan are dealt with at respective workplaces, a final decision is made by the Vice-Dean for Study Affairs.

INFORMATION ON LANGUAGE COURSES

Apart from compulsory language courses, the Department of Foreign Languages further offers the following to students of all years and programmes:

English conversation with a native speaker (enrolment with the secretary of the Department, Ruská 91 opens in September 2008) - conversation classes are free.

German, French, Spanish courses and preparation for Cambridge First Certificate in English. These are paid courses. Course enrolment with the secretary of the Department, Ruská 91 opens in September 2008.

PRIZES FOR STUDENTS AND GRADUATES

Prize of Josef Hlávka Foundation

The Josef Hlávka prize for the best students and graduates of public tertiary schools in Prague, the Technical College in Brno and for young talented researchers at the Czech Academy of Science.

Eligibility conditions:

- Conditions are announced annually, more info on www.hlavkovanadace.cz

Prize of Minister of Education, Youth and Sports

The prize of Minister of Education, Youth and Sports is awarded to outstanding students and graduates in bachelor, master or doctoral study programmes.

The award consists of a diploma and a material or financial gift.

Eligibility conditions:

- Extraordinary results in studies and in scientific, research, development, artistic or other creative activity

Prize of Rector of Charles University

This prize can be awarded to outstanding students of bachelor or master study programme at the end of their studies for achieving extraordinary results in scientific, research, sport or cultural activity during their university studies.

The prize can be awarded every year to one student of bachelor study programme and to one student of master study programme in health sciences - Prize of prof. MUDr. Karel Weigner.

Eligibility conditions:

- student in final year of studies in bachelor or master study programme
- extraordinary results in scientific, research, sport or cultural activity

Extraordinary Prize of Rector of Charles University

The prize is awarded occasionally. It is solemnly delivered to the laureate along with a rector's letter at the session of Scientific Council of Charles University.

Eligibility conditions:

- a single act or activity carried out in the course of studies and manifesting an extraordinary civic audacity or devotion
- achievement of extraordinary results out in the course of studies in the area of science or research
- extraordinary high award for performing cultural or artistic activities or outstanding sport results in international competitions

Margaret M. Bertrand Prize

In May 1991, Margaret M. Bertrand, a Canadian professor of English, bestowed the sum of \$ 1000 to support the best graduates at the Faculty. This endowment is increased by further contributions from teachers, friends and alumni of the Faculty. Every year the best 6th-year student is awarded from the interest on this deposit. The amount of prize is commensurate to the amount of actual deposit.

Conditions for granting the award:

- average grade throughout the studies at least 1.2
- extracurricular activities which contributed to the credit of the faculty

The final selection of candidates takes place during the session of the Academic Senate of the Faculty every May.

Vesmír Prize

The prize is awarded annually to two students from each year. The faculty shall arrange annual subscriptions of the magazine Vesmír for the selected students. The Academic Senate has the final word based upon the proposal of the student representatives in the Academic Senate.

Conditions for awarding the prize:

- average grade for the previous academic year
- not worse than 1.8
- extracurricular participation in pedagogical, scientific, cultural and sport activities

Dean's Award

1. The Dean may award students who during the course of their studies significantly:

- manifested their outstanding study, scientific, or teaching skills;
 - represented the Third Faculty of Medicine;
 - participated markedly in the organisation of faculty life.
2. The Dean announces his decision to award and it is published by usual faculty means. The decision also includes the form of award.

FOUNDATIONS AND ASSOCIATIONS AT 3FM

Relief Fund "Student 3FM"

In the academic year 1992/93, 3FM established the PROBIMED foundation to support gifted students who suffered from a material misery. This foundation ceased its function in 1998 in accordance with the law no. 227/1997 „On foundations and funds“. In 1999 the STUDENT 3FM relief fund was established with the same aim. The property of PROBIMED foundation was transferred to the STUDENT 3FM relief fund.

The relief fund is administered by a board of trustees:

doc. MUDr. Hana Provazníková, CSc.

MUDr. Karel Křikava, CSc.

Mgr. Ivan Boháček

Ivan Medek

doc. MUDr. Vlasta Rychterová, CSc.

prof. MUDr. Radana Königová, CSc.

prof. MUDr. Jiří Horák, CSc.

MUDr. Jitka Patočková, Ph.D.

Věra Tomášková

The board of trustees is responsible for its activities to a supervisory board chaired by prof. MUDr. Michal Anděl, CSc. with prof. MUDr. Richard Rokyta, DrSc. and prof. MUDr. Miloslav Kršiak, DrSc. as members.

The relief fund will according to its programme:

- provide one-off aid to buy study literature;
- provide one-off support in a sudden aggravation of social situation.

Rules for granting a financial support:

- a request must conform to aims of the relief fund;
- the applicant's average of study results must not be worse than 2,0;
- a grant application is submitted in writing to the board of trustees;
- the management of faculty is asked for their opinion.

The STUDENT 3FM relief fund administers the deposit of the MARGARET M. BERTRAND Prize.

TRIMED - civic association of students

The student organisation TRIMED was founded in 1997 and since then it has been significantly involved in organising various social, cultural and educational events. Any student of our faculty can become a member of Trimed.

We participate in organisation of many activities, first of all faculty balls where students and teachers meet and which are considered as the most prestigious social event of the faculty. A part and parcel of every ball is a raffle with valuable prizes and a student dance show. The faculty building hosts Wednesday Tea - debates with interesting personalities. Our students have a chance to exhibit their photographs at regular CVAK exhibitions. In autumn we go on a weekend „school trip“ where numerous students of all years and even some teachers have a good time. In the beginning of every academic year, TRIMED organises a week-long sale of second-hand textbooks. Showings of Film Club that are very popular among students are also under our auspices.

Other favourite events are Easter, Witch and St. Nicholas parties that regularly take place in the dining hall of student dorms in Podolí. The unforgettable and traditional item in our schedule of entertainment events is the Steamboat - a masquerade party in May usually on board of "Odra" steamer.

Besides, we pay attention to preventive and humanitarian activities - e.g. we organise a regular competition in co-operation with IFMSA "Donate blood!" to support the Transfusion Station of our Faculty Hospital FNKV. On December 1 - the World Day of Fight against AIDS - we organise a financial collection to support AIDS sufferers. Around the feast of St. Nicholas we run another collection called „Chocolate for Nicholas“ that is destined for children from the children's home in Říčanská St., associated with our Faculty Hospital. In co-operation with IFMSA, there are regular humanitarian collections for inhabitants of refugee camps on the territory of Czech Republic.

Besides, there are interesting seminars on topics relevant for students, a student journal "3Medik", an introductory meeting of 1st-year students and the Orientation Day to facilitate the beginning of studies for our freshmen.

Trimed aims to contribute to the faculty social life, to make studies more pleasant, to raise students' pride in their alma mater and their satisfaction with it. Trimed brings you a chance to meet interesting people, to find a space for your self-assertion and to gain a plenty of interesting and useful experience, which you can apply even in your future demanding employment.

Our office is in the main faculty building. We are happy to answer any enquiries by e-mail: trimed@centrum.cz or on our website <http://trimed.lf3.cuni.cz/>

IFMSA CZ

IFMSA - International Federation of Medical Students Associations is an independent, non-political organisation bringing together 92 student bodies from 88 countries of the world. It was founded in May 1951 as a result of the post-war wave of friendship among students. It is associated with UNO (United Nations Organisation) and WHO (World Health Organisation) as an international forum of medical students. The aim of IFMSA is to support international co-operation in expert education and to spread humanistic ideals. IFMSA gives medical students a chance to influence the practice and development in medicine.

IFMSA in Czech Republic

There is a national representation - IFMSA Czech Republic (IFMSA CZ), acting at all seven medical faculties in our republic. Any student of a medical faculty in CR can apply for a membership in IFMSA CZ. The membership is voluntary and free of charge. With us, you can participate in a summer elective abroad or get involved in various projects. Our local office at the Third Faculty of Medicine organises humanitarian collections, it co-operates with Trimed on supporting blood donation and participates in campaigns on important days (Day against AIDS, World Day of Health...). We intend to launch projects "First Aid" and "Playing against AIDS" in the future.

STRUCTURE

IFMSA activities are steered by standing committees in various areas - student exchange (clinical and research), public health (prevention not merely of civilisation diseases), reproductive health including AIDS, refugees and peace, and medical education. Every standing committee is represented in every member country by one national co-ordinator and at every faculty involved in the area by a respective local co-ordinator. The standing committees co-ordinate numerous programmes and preventive or humanitarian projects. Apart from professional monthly exchanges (about 6000 medical students world-wide are involved annually), the most famous IFMSA projects are TB Survey, Calcutta Village Project, Teddy Bear Hospital, and Romania Orphanage Project. Every year, many seminars, summer schools and trainings take place.

If you want to know more on IFMSA CZ, to become our member or to get involved in our projects, visit our web pages on www.ifmsa.cz, come to a local meeting (announced on notice boards)

AMSEC - Association of Medical Students of the English Curriculum

AMSEC was founded with the aim to take care of the interests and rights of the students at the English curriculum of 3FM. By this, we intend to improve the level of professional skills of the students and graduates, as well as increase the prosperity during the period of study.

All classes at the various levels have their representatives in the council of AMSEC. They are regularly coming together in meetings, discussing topics brought to them by the students and initiating academic proposals as well as social activities. By a close cooperation and dialogue with the faculty administration, Academic Senate, TRIMED and other relevant organs and individual persons at our faculty, we are trying to solve problems and to support and stimulate the positive aspects at our faculty. The council members, representing their respective classes, are electing the board of AMSEC. The members of the board are having the superior responsibility of progression, activity and organization of AMSEC.

HALLS OF RESIDENCE - DORMITORIES

The primary tasks of Halls of Residence are defined by the Statute of Charles University in Prague - Organization Rules for Halls of Residence, following internal instruction of the University. More information can be found at <http://www.ubytovani.cuni.cz>.

There is no legal right to dormitory accommodation. Rooms are allotted according to hard-and-fast rules and criteria (e.g. commuting time, health incapacities), taking into account all students' abilities and needs. Price of accommodation corresponds to its quality.

This is a list of dormitories where students of Charles University are accommodated:

Kolej Arnošta z Pardubic

Praha 1, Voršilská 1, tel.: +420 224 933 825

Kolej Jednota

Praha 1, Opletalova 38, tel.: +420 224 211 773-4

Kolej Petráská

Praha 1, Petráská 3, tel.: +420 222 316 430

Kolej Budeč

Praha 2, Wenzigova 20, tel.: +420 224 262 795

Kolej 17. listopadu

Praha 8, Pátkova 3, tel.: +420 284 685 551

Švehlova kolej

Praha 3, Slavíkova 22, tel.: +420 222 727 115

Kolej Hvězda

Praha 6, Zvoníčková 5

Kolej Kajetánka

Praha 6, Radimova 12, tel.: +420 233 095 103

Kolej Na Větrníku

Praha 6, Na Větrníku 1932, tel.: +420 220 402 217

Kolej areál Hostivař

Praha 10, Weilova 2, tel.: +420 274 868 757

Kolej Otava

Praha 4, Chemická 953, tel.: +420 271 911 453, +420 271 111 1348

Kolej Vltava

Praha 4, Chemická 954, tel.: +420 271 911 453, +420 271 111 1248

Conjugal dormitory - for married couples with children:

Kolej Hvězda

Praha 6, Zvoníčková 5, tel.: +420 220 431 111

Kolej Komenského

Praha 6, Parlářova 6, tel.: +420 220 516 812

Foreign students' dormitory:

Kolej Komenského

Praha 6, Parlářova 6, tel.: +420 220 516 812

REFECTORIES

Students may have their meals in student refectories. A new system has been at work since March 2008. **More information is to be found on <http://www.kam.cuni.cz>**

Students and staff of 3FM can also use services of the hospital restaurant at the Faculty Hospital Královské Vinohrady. Students get a state subsidy from the University set by the Ministry of Education. The difference between the amount of subsidy and lunch price has to be covered by students directly in the dining room by means of a special chip card. For more information contact the Study Division.

List of Refectories:

17. LISTOPADU, Praha 8, Pátkova 3
ALBERTOV, Praha 2, Albertov 7
ARNOŠTA Z PARDUBIC, Praha 1, Voršilská 1
BUDEČ, Praha 2, Wenzigova 20
HOSTIVAŘ, Praha 10, Weilova 1128
JEDNOTA, Praha 1, Opletalova 38
DINING HALL IN PETERSKA DORM, Praha 1, Petráská 3
KAJETÁNKA, Praha 6, Radimova 6
PRÁVNICKÁ, Praha 1, Curieových 7
BREAKFAST HALL IN KOMENSKY DORM, Praha 6, Parlářova 6
SPORT, Praha 6, J. Martího 31
DINING HALL JINONICE, Praha 5, U Kříže 10
DIETARY REFECTORY FOR STUDENTS AND PUBLIC, Praha 1, Spálená 12

STUDY PLANS

The following dates were set down in accordance with the Study and Examination Regulations, article 3, by the Dean of Faculty after negotiations with the Rector of University.

CALENDAR FOR THE ACADEMIC YEAR 2008/2009

OPENING OF THE ACADEMIC YEAR September 29, 2008

END OF THE ACADEMIC YEAR September 28, 2009

Winter Semester:		
Classes	Week 1 - 12	29.9.2008 - 21. 12. 2008
Christmas vacation		22. 12. 2008 - 2. 1. 2009
Classes	Week 13 - 15	5. 1. 2009- 24. 1. 2009
Examination period		26. 1. 2009 - 21. 2. 2009
Summer Semester		
Classes	Week 1 - 15	23. 2. 2009 - 6. 6. 2009
Examination period		8. 6. 2009 - 4. 7. 2009
Summer vacation		6. 7. 2009 - 29. 8. 2009
Examination period		31. 8. 2009 - 25. 9. 2009

Students may take exams after having fulfilled all the requirements assigned by their study plans.

TEACHING SCHEDULE		
Week	Winter Semester from - till	Summer Semester from - till
1	29. 9. - 4. 10. 2008	23. 2. - 28. 2. 2009
2	6. 10. - 11. 10. 2008	2. 3. - 7. 3. 2009
3	13. 10. - 18. 10. 2008	9. 3. - 14. 3. 2009
4	20. 10. - 25. 10. 2008	16. 3. - 21. 3. 2009
5	27. 10. - 1. 11. 2008	23. 3. - 28. 3. 2009
6	3. 11. - 8. 11. 2008	30. 3. - 4. 4. 2009
7	10. 11. - 15. 11. 2008	6. 4. - 11. 4. 2009
8	17. 11. - 22. 11. 2008	13. 4. - 18. 4. 2009
9	24. 11. - 29. 11. 2008	20. 4. - 25. 4. 2009
10	1. 12. - 6. 12. 2008	27. 4. - 2. 5. 2009
11	8. 12. - 13. 12. 2008	4. 5. - 9. 5. 2009
12	15. 12. - 20. 12. 2008	11. 5. - 16. 5. 2009
13	5. 1. - 10. 1. 2009	18. 5. - 23. 5. 2009
14	12. 1. - 17. 1. 2009	25. 5. - 30. 5. 2009
15	19. 1. - 24. 1. 2009	1. 6. - 6. 6. 2009

Students may take exams after having fulfilled all the requirements assigned by their study plans.

- Solemn Matriculation Oath for the 1st year students shall take place on October 3, 2008 in Magna Aula of Carolinum.
- The Day of Open Doors for applicants to the Third Faculty of Medicine will take place **on January 16, 2009 at 14 o'clock** in the faculty building.
- Solemn Graduation Ceremony for all subject majors shall take place on July 7 and 8, 2009 and on October 2, 2009 in Magna Aula of Carolinum.

Rector's Day: 13 May 2009

Dean's Day: 15 October 2008

Commencing the 5th year, students shall select the topic of their dissertation. The dissertation shall be overseen by a supervisor and shall be defended in the 6th year as part of the State Final Examination in Preventive Medicine. The dissertation topic focused on prevention can be assigned under any teaching Department of the Faculty. All dissertations are administered by the Centre of Preventive Medicine. The topic of dissertation paper must be written in the Study Information System both in Czech and English languages.

The State Final Exam in Module of Neurobehavioural Sciences comprises also Medical Psychology and Pathopsychology (a separate course in the 4th year).

N.B.: **HCT** = hours of contact teaching, **EC** = European credits, **CR** = credits, **C** = course, **SC** = separate course, **CC** = course credit, **E** = exam, **SE** = part of Final State Examination, **CSP** = conference/seminar/practical training

OPTIONAL ELECTIVE COURSES - 2008/2009

WINTER SEMESTER

No. of the EC	Name of the Course/ Adresses	Teacher/ Supervisor	Max. number of the students	Day in week/ hours in week	Hours per sem.
List of the courses for 3rd year					
3/W	Clinical Anatomy (two-semester course) <i>Dpt. of Anatomy</i>	prof. Stingl	40	Tue	15 WS + 15 SS
10/W	Urogynaecology and Modern Surgical Miniinvasive Treatment <i>Ústav pro péči o matku a dítě (Instit. for Mother and Child Care in Praha-Podolí, Prague 4, Podolské náměstí.157)</i>	doc. Feyereisl	5	Tue November 3h. per day	15 WS
List of the courses for 3rd and 4th year					
1/W	Basic and Clinical Endocrinology (two-semester course) <i>Instit. of Endocrinology, Národní 8, Praha 1</i>	Dr. Kančeva	5-15	Tue/ at 4:30 p.m.	30 WS + 30 SS
2/W	Principles of Vaccine Development against Infectious Diseases <i>Dept. of Immunology 3FM CU</i>	Dr. Otáhal	30	Fri	15 WS
4/W	Therapeutic Monoclonal Antibodies and Cytokines and Their Use in Medicine (two-semester course) <i>Instit. of Hematology and Blood, U Nemocnice 1, Praha 2, bldg. B, 2nd floor</i>	Doc. Stöckbauer	8	Tue or Thu	15 WS + 15 SS
5/W	The Soluble Mediators in Immune System	Dr. Vojtíšková	25	Tue	15 WS
List of the courses for 4th year					
6/W	Neuroanatomy (two-semester courses) <i>Dept. of Anatomy</i>	Dr. Zach	Nolimited	Thu	15 WS + 15 SS
7/W	Urgent Procedures in Burn Medicine (two-semester course) <i>Dept. of Burns Medicine, FNKV</i>	Prof. Königová	6	Mon 2 h Burn center	45 WS + 45 SS
8/W	Urooncology (two-semester course) <i>Dept. of Urology, FNKV</i>	Dr. Trněná, Dr. Grill, Dr. Matoušková	3	Thur 14:30- 16:00 or indiv.	15 WS + 15 SS
9/W	Diabetes and Pregnancy <i>Ústav pro péči o matku a dítě, (Inst. for Mother and Child Care in Praha-Podolí,</i>	Dr. Andělová	6	Thur November 3h. per	15 WS

No. of the EC	Name of the Course/ Adresses	Teacher/ Supervisor	Max. number of the students	Day in week/ hours in week	Hours per sem.
	Prague 4, Podolské nábř.157			day	
11/W	Neonatology Ústav pro péči o matku a dítě, (Inst. for Mother and Child Care in Praha-Podolí, Prague 4, Podolské nábř.157)	Dr. Straňák	6	Thur November 3h. per day	15 WS
12/W	Methods of Nuclear Cardiology in Clinical Practice (will be repeated in summer sem.)	Dr. Lang	5	Mon	15 WS

SUMMER SEMESTER

No. of the EC	Name of the Course/ Adresses	Teacher/ Supervisor	Max. number of the students	Day in week/ hours in week	Hours per sem.
List of the courses for 2nd, 3rd and 4th year					
5/S	Advances in Immunology of Infectious Diseases. Molecular Mechanisms of Defense Against Infections <i>Instit. of Molecular Genetics</i> Václavská 1083, Praha 4 - Krč	Doc. Lipoldová	40	Tue 1part SS	15 SS
List of the courses for 3rd year					
4/S	Progress in Experimental Immunotherapy of Cancer <i>Dept. of Immunology, 3.LF UK</i>	Mgr. Hulíková	15	Tue 14.30 2part SS	15 SS
List of the courses for 3rd and 4th year					
*1/S	Academic Communication in English <i>Dept. of Foreign Languages</i>	Mr. Secrest	8	Tue	30 SS
List of the courses for 4th year					
2/S	Clinical Manifestation of Immune Disorders <i>Dept. of Immunology, FNKV</i>	Dr. Novák.	5	Tue	30 SS
3/S	Modern Radiological Imaging <i>Dept. of Radiodiagnostics</i>	Doc. Šprindrich	20	Thu	14 SS
6/S	Endoscopic Surgery – Modern Surgical Technology Ústav pro péči o matku a dítě (Inst. for Mother and Child Care in Praha – Podolí, Podolské nábř. 157, Praha 4	Dr. Kučera	5	Tue April 2009	15 SS
7/S	Immunopathology in reproduction Ústav pro péči o matku a dítě (Inst. for Mother and Child Care in Praha – Podolí, Podolské nábř. 157, Praha 4	Dr. Madar	6	Thu Apríl 2009	15 SS
8/S	Prenatal diagnosis, genetics Ústav pro péči o matku a dítě (Instit. for Mother and Child Care in Praha – Podolí, Podolské nábř. 157, Praha 4	Dr. Krofta	6	Thu Apríl 2009 3h per day	15 SS
*2/S	Methods of Nuclear Cardiology in Clinical Practice (repetition from Winter Semestr)	Dr. Lang	5	Mon	15

Pediatric of Surgery						MS
Urology			IIC9	IIC7,15		MS

Explanatory notes for the chart Hours of Subjects in the Curriculum:

- IA Module IA Structure and Function of Human Body
- IB Module IB Cell Biology and Genetics
- IC Module IC Biophysics and Informatics
- ID Module ID Needs of the Patient
- IE Module IE Methodology
- IIA Module IIA Theoretical Foundations of Clinical Medicine
- IIB Module IIB Clinical Propaedeutics
- IIC Module IIC Clinical Pathological Foundations of Medicine
- IIC1 Module IIC Sub-Course No. 1 Infectious and Febrile Conditions
- IIC2 Module IIC Sub-Course No. 2 Pain
- IIC3 Module IIC Sub-Course No. 3 Disorders of Nervous System
- IIC4 Module IIC Sub-Course No. 4 Mental Disorders
- IIC5 Module IIC Sub-Course No. 5 Dyspnoea and Chest Pain
- IIC6 Module IIC Sub-Course No. 6 GIT and Abdominal Complaints
- IIC7 Module IIC Sub-Course No. 7 Tumours
- IIC8 Module IIC Sub-Course No. 8 Disorders of Renal Functions and Edema
- IIC9 Module IIC Sub-Course No. 9 Bleeding
- IIC10 Module IIC Sub-Course No.10 Cutaneous Changes
- IIC11 Module IIC Sub-Course No.11 Endocrine and Metabolic Diseases
- IIC12 Module IIC Sub-Course No.12 Locomotor Disorders
- IIC13 Module IIC Sub-Course No.13 Sensoric Disorders
- IIC14 Module IIC Sub-Course No.14 Failure of Vital Functions

- IIC15 Module IIC Sub-Course No.15 Trauma
- IIC16 Module IIC Sub-Course No.16 Disorders of Reproduction and Fetal Development
- IIC17 Module IIC Sub-Course No.17 Disorders of Growth and Development in Postnatal Period
- IIC18 Module IIC Sub-Course No.18 Ethical Problems of Today's Medicine
- IIC19 Module IIC Sub-Course No. 19 Disorders of Immunity
- MP Module of Paediatrics
- MGO Module of Gynaecology and Obstetrics
- MS Module of Surgery
- MNS Module of Neurobehavioural Sciences
- MPM Module of Preventive Medicine
- MIM Module of Internal Medicine
- COC Compulsory Optional Courses
- SC Separate Course

HISTORICAL NOTES

CHARLES UNIVERSITY IN PRAGUE

<http://www.cuni.cz>

As early as by the end of the 13th century there were favorable conditions for the expansion and fostering of education in the Bohemia Kingdom of Czech Lands (Bohemia and Moravia). The high intellectual level of the Royal Court was admired. The Czech Lands were famous for their Cathedral School and prominent schools of various religious orders. No wonder it was King Wenceslas II of the Přemysl dynasty who came up with the idea of a university. The giant sails of his plan, however, were trimmed by the nobility. The idea lay dormant until the times of Charles IV, successor to the Přemyslids' throne, whose alma mater was the University of Sorbonne in Paris and who therefore was fully aware of the importance of university for the country as well as for its ruler.

To establish a university was no plain sailing in those times: subject to the internal conditions of the Kingdom, relations between the king and the nobility, present economic situation, and international bonds and associations. Moreover the name - studium generale - was a seal granted by the Papal Curia with the commitment of the best quality education. The universities in the Middle Ages concentrated knowledge as well as scholars, raised by diverse schools all around Europe. The degrees granted by these universities were recognized in the entire Christian world and the universities grew into potent cultural and social institutions.

Having acquired the Pope's authorization, Charles IV (by then officially appointed Czech King) issued the Founding Charter on the 7th April 1348. It is essential that to emphasize that this was the first university in Central Europe, hence it played the key role in propagating the roots of education in this region. The Charter was issued by Charles IV 'of His own accord'. In effect this meant taking on one's shoulders all the responsibilities of smooth running of the new institution. The original reads: '... The famous university was also founded so as to aide faithful habitants of our Kingdom in their infinite desire for the fruits of science, bar them from humble and demeaning conduct in foreign lands, and set the table for feast at home...'. The Charter was sequestered from Prague by the Nazis in 1945 and has been unaccounted for since.

The Czech Church covered all running costs of the University. At first the University Chancellor and Prague Archbishop Arnošt z Pardubic took the University under his wings. By means of various collections he bought first University movables together with a building in the Old Town of Prague. When a university college, the Carolinum, was set up on the 30th July 1366, the foundation of the University was completed. The fact that it has been the seat of the University rectorate until today points to the importance of establishing the Carolinum.

In 1370 Charles IV bought a legacy of 114 manuscripts left by Vilém of Lestkov, which greatly enriched the library collection.

At the end of the 14th and beginning of the 15th century when the Czech Reformation saw the light of day, the Prague university enjoyed privilege equal to the corresponding institutions in Bologne (founded 1119) and Paris (founded 1253). It included all the faculties recognized in the Middle Ages: the Faculty of Arts, Law, Theology, and Medicine. Initially, lectures used to take place in professors' flats, only later did they move to a building on Kaprova street.

At that time many doctors from the milieu of the royal family practiced there - the first Professor of Medicine being M. Valter (1348), succeeded by M. Baltazar de Tuscia (1353). Each doctor-to-be had to learn by ear the works of Antique, Christian and Jewish experts on medicine, and step-by-step ply their trade in towns or in the country under close observation of professors.

In the 1390s, the generation of prevailing foreign masters was gradually substituted by their Czech counterparts who, by the way, went so far as to form their own concept of a critique of the Church as well as its entire order so far. A key role in the process of Czech Reformation and Hussite ideology in general was the translation of Bible into Czech facilitated by the University. Diverse as the audience were, the Bible affected the cultural level of the whole Czech society before Jan Hus.

In 1415, after the death at stake of the present Rector of Charles University Master Jan Hus, prevailing recalcitrant and turbulent discussions had turned into a clear-cut viewpoint of the rising movement, with one outcome: the declaration

that the sacrament of the Holy Eucharist should be administered in both kinds, this being the only means to redeem one's soul. Thus the University became the first institution in the Christian world to stand up for the Reformation and play off the current exegesis of Christianity put forward by official bodies - the Council and the Pope. Over all ecclesiastical prohibitions it carried on. The so-called 'Four Articles of Prague' (a programme of the moderate middle current of the Hussite movement) were formulated here. Hence, the University indubitably sustained a substantial part of the Movement, although its influence tapered off as the left wing gained on prominence. During the Hussite period and namely after the lost Battle of Lipany, activities of the University were markedly suppressed. Its institutions either withdrew from the political forefront or disappeared.

The University again wielded an immense influence on the Czech culture prior to the Battle of the White Mountain (1620): many works of far-reaching importance were translated into Czech language to later constitute a rich cultural heritage, a bedrock of the National Renaissance of the Czech People.

However, the Battle of the White Mountain silenced the Czech non-Catholic intelligence. Rector of the University Jan Jessenius, a well-known surgeon who carried out the very first Czech public dissection (at the Old Town Square in Prague in 1600) was executed. Many more prominent Czech scholars were persecuted for their disapproval of the Habsburgs and were driven out of the country. In the end, after more than thirty years of constant altercation over the dominance, the Jesuits prevailed and easily subjected the institution to their pecking order. There still were quite a few important professors among the staff of the Faculty of Medicine, e.g. Jan Marcus Marci of Kronland, Harvey's predecessor in embryogenesis, who, with his interpretation of epileptogenesis, came three hundred years ahead of his time, and Jakub Dobřenský of Černý Most, one of the founders of pathological anatomy. During the Habsburg rule, the University was renamed Charles-Ferdinand University, the name which it could not shake off for almost three hundred years.

In the middle of the 18th century the University underwent major changes. Individual faculties achieved recognition especially in the field of

Mathematics and Physics, Philosophy, and Medicine. The Faculty of Medicine expanded with natural sciences, and took on important scholars, for instance the pioneer of electrophysiology and electric treatment Czech and world-wide, Jan K. Boháč, who introduced experimental methods into research; an expert in anatomy Josef T. Klinkosch, or the physiologist of world importance in the field of nerve activity and Dean of the Faculty (1789) Jiří Procháska. As a result of health care reform introduced by Boerhaave's pupil van Swieten and realized by the government in Vienna in order to consolidate the state economy and the state of internal affairs, more health care staff found employment in practice, thus enabling rather a far-reaching quantitative expansion in the studies of Medicine. Since the van Swieten's reforms, the University has been instructing the students at patients' bedside.

In 1774 the University was deprived of the Church control and ranked among the state institutions. That is why the freedom in subject and style of lecturing was restricted (as officially approved, standardized textbooks were introduced to facilitate the control over the curricula in the entire monarchy). There was another side to the coin however, i.e. getting rid of anti-reformist world viewpoint and Scholastic residue.

The 1784 curriculum did away with Latin as an instruction language, introducing German instead. Foregoing subjects of the seven arts were transferred to secondary schools and the University focus rested solely on natural, technical, and social sciences.

The end of Enlightenment brought to the surface the struggle for language emancipation, which came to the forefront as a sign of rather complex social problems. Repressions, which followed hunger strikes and student unrests and demonstrations, focused especially on the Faculty of Arts, saving the good name of the Faculty of Medicine which, by then, had had a considerable experience in practice and was well-known abroad.

The most prominent and central character of Czech science was Professor of Natural Sciences Jan S. Presl, the founder of Czech scientific terminology, and author of "Catalogue of Plants" and "Catalogue of Minerals". One of the most distinguished anatomists of the 19th century Josef

Hyrťl, dissector with an outstanding injection technique, made exemplary dissections and published an excellent textbook on anatomy (1846) in Prague. From a myriad of Enlightenment doctors we need to name at least Jan T. Held, who was the Dean of the Faculty of Medicine (1817/8, 1818/9, 1823/4, 1824/5), Rector of the University (1826/7) and a musical composer.

It was mainly the students who dressed the soil for growing national movement, themselves being under a strong influence of unorthodox lectures given by B. Bolzano, who conceived religion as an ethical and educational problem. Step by step, naturalist pull was overshadowed by the drive of social sciences and modern languages and literature, from which stemmed a current of nation-liberating ideology. In 1848 the events reached its peak - the students formed an armed Student Legion and other associations so that they could subsequently, during the uprising in June, lead the fights on barricades from the occupied Klementinum.

Repressions following the suppression of the uprising hit education for a long time to come. A new curriculum was introduced, students' associations forced to dissolve, and many students as well as teachers were disciplined. Even the most famous Czech expert on natural sciences and Professor of Physiology at the Faculty of Medicine in Prague from 1849, Jan Evangelista Purkyně (1787-1869), was under police surveillance. His prominent pupil, Jan N. Čermák, the originator of rear rhinoscopy, left Prague to found Departments of Physiology at several middle European universities. Also prof. Ferdinand Arlt moved away just before his milestone of a textbook on eye disorders came out.

The abrupt fall of Bach's absolutist regime in 1859 ignited Czech nationalist movement which came hand in hand with unshackled development of sciences. Students' associations were revived along with a number of magazines and chronicles, literary and musical parties, and the University ventured forth with Czech language as a language of instruction. Czech professors and associate professors, having received their teaching degrees, went on to new clinics. At that time the office of the Dean of Faculty was administered for example by Edwin Klebs (1879-1880), the discoverer of causative agents of

diphtheria, typhoid, and other wound infections (cf. the eponymous bacterial family), August Breisky (1880-1881), gynecologist and meticulous follower of Semmelweis' and Lister's teaching on asepsis, as well as Karl Toldt (1881-1882), author of a famous anatomical atlas and founder of the Department of Anatomy.

In 1882 the monarch endorsed the law which divided the Prague University in two parts: Czech and German.

T. G. Masaryk was an influential personality in the development of the Czech University: he became the first professor of philosophy and his humanitarian, civic and international thinking wielded immense influence especially over young Czech intelligentsia. Czech textbooks and magazines took off, the famous twenty-seven part 'Otto's Encyclopaedia' was published, Czech schools of science emerged, e.g. Gebauer's in Bohemistics, Goll's in History, Strouhal's in Physics. Let us list a few from a number of founders of the Prague School of Medicine: doctors of internal medicine Eiselt, Meixner, Thomayer, Syllaba, and pathologist Hlava.

The Czech University soon surpassed the German University by the three-fold number of its students, partly also because plenty of students from other Slav nations were enrolled there. The German part of the University was significant for taking a lion's share in extending the system of education into Central Europe for generations to come, thus being influential not only for Bohemia and other regions but also for all German-speaking nations in Central Europe. To select at least a few out of all deans of the German Faculty of Medicine, we ought to mention a couple which will stay forever immortal - the physiologist Ewald Hering (1877/8, 1884/5, 1906/7)), and the pathologist Hans Chiari (1886/7 a 1896/7). As for other academic members of the German University, we should mention its Rector Ernst Mach (1883-1884). In 1912-1913 Albert Einstein, the author of the Theory of Relativity, worked here.

In the nineties of 19th century several events took place overall having an immense impact on further development of Czech education and culture: the Czech Academy of Sciences and Arts was founded (1890), and the Convention of Progressive Slav Students was held in Prague (1891). The Convention put forward and ratified an agenda, which would deal with the plight of

national and democratic rights as well as with social questions. At that time, demonstrations against conservative professors shifted from lecture rooms and auditoria to streets and fomented movements of the youth, which culminated in a violent anti-dynasty demonstration on the ruler's birthday on the 17th August 1893.

In the first two decades of the 20th century, the core of the University work consisted especially in scientific research. We find many prominent Czech scientists and scholars practicing at the University in those years: Professor of Chemistry B. Brauner, botanist B. Němec, Professor of Experimental Physics B. Kučera. The Prague University already had female students by then (they had been permitted to enroll since 1897). In 1919 Charles-Ferdinand University was abolished and its Czech part underwent a transformation into Charles University again. An independent German university was founded, and lasted until 1945 when it was finally abolished.

Every student of Medicine shall sooner or later encounter termini such as Hering channels, Epstein symptom, Zaufal sign, Weil-Felix reaction, Klausner test, Biedl syndrome, Chiari malformation, Kahler or Pick disease, Schlof-Fer tumour, Elschnig pearls, Breisky and Knaus method, Gussenbauer clipper, Hasner operation, Schauty, Steinach operation, will possibly read about Richard von Zeynek's diathermal treatment, etc. The above mentioned are names of professors of German Prague Faculty of Medicine, alma mater to a number of famous students: for instance Hans Hugo Selye, the originator of the Theory on Adaptation Syndrome and Stress Reaction, graduated here, as well as Prague natives Gerty Theresa Radnitz and Carl Ferdinand Cori, later husband and wife, winners of the Nobel Prize for Medicine (1947) for their joint discoveries in the sphere of the carbohydrate metabolism.

The University status changed with the establishment of independent Czechoslovak Republic in 1918. It became the first Czechoslovak university and its students took a significant part in creating the atmosphere of the First Republic. Acrid debates and opinion clashes among the devotees of different movements followed only to be swallowed by the threat of German fascism and subsequently transformed

into the resistance to Nazi terror. As to the public response among intelligentsia, it redoubled with the publication of literary and critical essays and lectures by F. X. Šalda, and works by controversial Professor of Music Z. Nejedlý. To quote from scientific work, we shall mention studies by Bedřich Hrozný, who deciphered Chetite writing. Let us mention - from tens and tens of teachers and professors of the University whose esteem and reputation spread abroad - at least the linguist Roman Jakobson and the historian Josef Pekař.

The importance of the Faculty of Medicine rose again, the number of its clinics increased from fourteen to twenty, and many foreign students were enrolled. Among prominent professors of the Faculty of Medicine between the wars were for instance world-famous physiologist, pioneer in endocrinology, discoverer of ferritin, author of the theory of stimuli, co-founder of cybernetics and inventor of spaciocardiography Vilém Laufberger, ambidextrous internist Josef Pelnář, founder of clinical neurology Kamil Henner, outstanding surgeon Arnold Jirásek, and founder of plastic surgery František Burian.

The Nazist invasion to Czechoslovakia stirred students to participation in demonstrations on the 28th October 1939. When police tried to stomp down, a medical student, Jan Opletal, was severely injured. His burial became yet another anti-Nazist manifestation on 15th November 1939. Hitler's nomenclature used it as a pretext to brutally impinge on Czech universities and students. On the 17th November 1939, Prague student dormitories were invaded and seized, 1200 Czech students taken to the concentration camp in Sachsenhausen, 9 students, leaders of the movement, were executed on the spot. Czech universities closed down, their buildings being freely available to SS troops, German universities, war industry, and for other purposes. The 17th November did not stay the only brutal revenge of the Nazis, nevertheless, it did remain a symbol of students' resistance against Nazism. In 1941 it was proclaimed the International Students' Day.

In the war years Czechoslovak students and intelligentsia took part in various underground movements and organizations of anti-Nazi resistance. 23 professors and other university teachers were executed - let us mention at least the Professors of Physics František Závěšek and

Václav Dolejšek, zoologist Jaroslav Štorkán, expert in Slav culture Josef Páta, sociologist Josef Fischer, and internists Alexandr Gjurič and Miloš Nedvěd. To Czech and Slovak nations the Charles University in Prague became a symbol of national culture, by the Nazis inexorably preordained to perish.

Post-war era bore the stamp of reconstruction of the national economy, which had been destroyed and devastated by war. Also the students did their best to aid the devastated economy and clarify political wings and opinions at the University. Increasing number of students showed their interest in university studies.

An outstanding biologist, Dr Jan Bělehrádek was the Rector and subsequently Vice-Rector of the Charles University in 1945 - 1946. After World War II, Josef Čančík became the first Dean of the Faculty of Medicine in Prague, the first deputy Deans of the new Faculties of Medicine at Charles University were Ivo Mačela (in Pilsen) and Bohuslav Bouček (in Hradec Králové).

In February 1948, however, all hopes for democracy and free development were crushed. The six-hundredth anniversary of the Charles University sarcastically began a new era of dogmatic thinking. Marx-Lenin ideology forced a number of professors and teachers out of work, their positions being easily filled by obsequious and obese comrades who were to guide the process of education in accordance with the Communist concept. One of the first to get their marching orders was the current Rector, important national economist, prof. Karel Engliš. The Communist Action Board of Students marked off thousands of students for expulsion. A common curriculum was introduced once again, including the basics of Marx-Leninist ideology, the only officially approved world view. This ensured a sufficient supervision over the entire system of education and universities. Thousands of young people were denied access to regular studies. Dogmatism and rigid censure influenced people's thinking in a very negative way as well as prevented a free development of education and co-operation with the Western world. The cornerstone of social progress was political loyalty, while morality or specialization received a severe cutback in time.

The Higher Education Act of 1950 legally provided for socialist changes in this field, ridding the universities of all their academic liberties. As

central planning and management of economy was introduced, a new Academy of Sciences structured in accordance with the Soviet model substituted the old Czech Academy of Science and Arts. 'Aspiratures' and science ranks of Doctor and Candidate of Sciences came in force. An extensive network of nomenclature and political 'cadres' checked upon the desired development.

In 1953 the original Faculty of Medicine in Prague underwent a transformation into three new faculties: the Faculty of General Medicine, the Faculty of Pediatrics, and the Faculty of Hygiene. The first Deans of these Faculties were František Blažek, Josef Houšťek, and František Bláha, respectively.

In spite of the fact that the official publishing, lecturing, scientific and research activities were grossly restricted, plenty of individuals as well as teams achieved remarkable results. Reluctance to implement the results of their work into practice, holding back the facts, distortion and intentional misinterpretation of new findings as well as detachment from the international scientific milieu, nevertheless led to a gradual hampering in the process of development not only in the sphere of science but also in the area of education and overall cultural, economic and social life which were soon to lag far behind the quickly developing Western world.

In Vinohrady Hospital and at the Faculty of Hygiene there worked several prominent personalities at this time: the above mentioned prof. František Burian, an outstanding surgeon prof. Emerich Polák (Vice-Dean of the Faculty in 1957-1959), from among the internists we should not omit a great cardiologist and endocrinologist prof. Vratislav Jonáš, and the founder of Czech diabetology and proponent of its good name abroad prof. Jiří Syllaba. The State Institute of Health employed prof. Karel Raška, who left no stone unturned to seal the doom of small-pox all round the world.

The events that took place in 1968, now inscribed to history as 'the Prague Spring', when the students also came in for their share, caused the invasion of Warsaw Pact armies into our country, with subsequent expurgations, repressions, and strengthening of the communist dictate. Students' demonstrations took place in the winter of 1968. Today we are left with the painful symbol of human desire for freedom - a student

of the Faculty of Arts at Charles University, Jan Palach, burned himself in January 1969 to protest against the stay of occupation armies into our country, as well as to object against all demagoguery, violence, and totalitarian suppression of freedom all over the world. However, the 'period of normalization' managed to hold in disgrace not only Palach, but any attempts to put forward the principles of democracy and freedom in the country. A similar destiny was doomed for the Charter 77, a remarkable act of independent citizens. A series of charges and trials, hand in hand with further expurgations and spying, followed. The years on the turn of the 1970s and 1980s were amongst the darkest times of the communist era since August 1968.

In spite of all attempts on the part of the communist government, the ties that bind Czech nation with the best moral and cultural tradition from T. G. Masaryk to Jan Patočka were preserved.

Great damage was inflicted on the Charles University, for the best specialists of outstanding moral and expert qualities were either forced to retire with no possibility to go on in their work or driven to exile right away.

Autumn 1989: the unbelievable did happen in the end. The unexpectedly bold courage of students and readiness of independent organized movements from home and abroad helped to bring about major changes and set our country - and the University - on the road to democracy in a very short time. Prof. Radim Palouš, PhD was elected Rector of the Charles University at this time (free elections of Deans and other members of the academic administration along with competitions for Heads of individual Departments, Associate Professors and Lecturers took place at the Faculties. The arrangement of the University stems from ages-proven tradition and is commensurate to the needs and requirements of individual faculties for autonomy as well as their co-operation and co-ordination. The opening to foreign world brings the restored University back to the free and developed modern world.

The Parliamentary elections in June 1992 evidenced the political tendency of the revolutionary November; yet due to a different vote of the Slovak people, the common state of Czechs and Slovaks - Czechoslovakia - fell apart after 74 years of existence. The Czech Republic

was proclaimed on the 1st January 1993. Naturally, this country falls into the line of independent Czech statehood from the first rulers of the Přemyslid dynasty where the Czechoslovak period forms no exception. The Charles University, the oldest university in Central Europe, belongs by dint of its tradition as well as by its current potential among the most important cultural, scientific and educational institutions in our country.

THIRD FACULTY OF MEDICINE, CHARLES UNIVERSITY IN PRAGUE

<http://www.lf3.cuni.cz>

The Vinohrady health care campus started its development in the beginning of the 20th century, by then at the city periphery. In 1902, the Emperor Franz Joseph I inaugurated the Vinohrady Hospital as the primary hospital for citizens of Královské Vinohrady and Žižkov districts. In 1925 the State Health Institute was opened in its vicinity. Both institutions soon started playing key roles in the development of health care in Prague, Bohemia and Czechoslovakia.

Prior to the division of Faculty of Medicine in 1953, both institutions served to training of medical students, based on systematic activity of their noteworthy staff.

Of the Vinohrady Hospital, there were namely the prof. of Ophthalmology Josef Janků, the discoverer of ophthalmic toxoplasmosis (M. Jankumi); Prof. of Lung and Abdominal Surgery Emerich Polák; the founder of Czech plastic surgery prof. František Burian. After the WWII: the founder of Czechoslovak diabetology prof. Jiří Syllaba, a famous cardiologist prof. Vratislav Jonáš, the founder of Czech pediatric haematology Dr. Jiří Janele, Prof. of Neurology J. Šebek, Prof. of Forensic Medicine E. Knobloch or the Head of Psychiatric Institute doc. V. Petrář.

Of the State Health Institute staff namely: prof. Ivan Honl, who established the first therapeutic Pasteur Institute on the territory of our state. The staff of this Institute participated in numerous world-wide programmes of the World Health Organization after WWII, among others in global eradication of small-pox (prof. Karel Raška).

Based on such a rich tradition, it was feasible to establish a new medical faculty on the Vinohrady health care campus.

Our Faculty refers to the tradition of medical studies at Charles University as it formed one of the four basic subjects upon its foundation in 1348. From the academic year 1882/83, the Faculty of Medicine, just as the rest of the University, was divided into two parts - German and Czech. On November 17th, 1939, together with all other Czech schools, the Czech part of the University was closed. This temporary halt in Czech education lasted till 1945. Then, along with the whole of German University, the German Faculty of Medicine was abolished. Its property was handed over to the Czech Faculty of Medicine. In 1953 the Ministry of Higher Education divided the Faculty of Medicine in Prague into three separate faculties: the Faculty of General Medicine (including stomatology), the Faculty of Pediatrics, and the Faculty of Hygiene. The latter was transformed into the current Third Faculty of Medicine in 1990.

The fact that a new independent Faculty of Hygiene was created in 1953 brought about some fundamental changes: this Faculty preserved a basic medical focus, although it specialized in the fields of hygiene and prevention. On the one hand this specialization enabled to develop all branches of hygiene in our post-war medicine, but on the other it at the same time restricted and limited the scope of students' realization in clinical practice.

The medical instruction at the communist era was branded by a rather formalistic and cadre-based approach. Since November 1989 we have been able to carry out all substantial changes in the organization of the Faculty requisite for the realization of the new curriculum and study reforms. The name of the Faculty was changed to the Third Faculty of Medicine, Charles University, which underlined its primary general focus. Assoc. Prof. Cyril Höschl, MD, was the first Dean of the Faculty elected in the free elections after the revolution in 1989. The Academic Senate was established then along with the Scientific Council which nowadays enlists many outstanding foreign members. There were competitions for all the leading positions at particular Departments, clinics, and for other university positions. The curriculum has been restructured so that the study plan reflects the general orientation of the Faculty integrating a developed area of preventive subjects. Plenty of employees from diverse sections of the Ministry of Health and the Academy of Sciences of the Czech

Republic are directly involved in the pedagogic as well as research activities of the Faculty.

In September 1992 a new Faculty building at Ruská street was opened. It houses the Dean's Office, different theoretical Departments, Departments of hygiene and preventive subjects, and, last but not least, the Center for Scientific Information, newly established in 1992. In May 1991 Mrs. Margaret M. Bertrand, a Canadian professor of English language, founded a prize for the best student of the Faculty to be awarded annually at the graduation ceremony.

The conditions for study and scientific work have improved with the opening of the newly constructed 6th floor of the main faculty building in May 2000, accommodating among others the Department of Nutrition and laboratories of chemistry and molecular biology. Further improvement has come in May 2006 with the reconstructed part of the Nursing College on Ruská 91 where the Departments of Medical Ethics, Nursing and Foreign Languages are now based.

Students' visits abroad are becoming an indelible part of instruction at the Faculty. Participation in international scientific and research programmes and lectures by foreign specialists enable the Faculty to spread its wings and establish new mutually beneficial scientific fellowships. This facilitates improvements in the quality of teaching material, studies of new methods, procedures, and approaches, thus creating technical conditions indispensable for achieving a higher level of education.

The Third Faculty of Medicine conferred its teaching degrees to many outstanding personalities in the last three years, among the most prominent were: prof. Zdeněk Neubauer in biology, doc. Ivan M. Havel in artificial intelligence, and prof. Luboslav Stárka in endocrinology. At the same time, several dozens of lectures by well-known foreign specialists took place on the precincts of the Faculty. Let us mention at least the Nobel Prize winner in neurophysiology prof. J. Eccles, famous specialist in psychiatry prof. P. Grof, and daseins-analytic prof. Condrau. As proposed by the Scientific Council of Faculty, Sir Karl Raimund Popper (1902-1996), epistemologist, open society proponent, one of the greatest philosophers of the twentieth century, was awarded the degree of doctor honoris causa in medicine on 25 May

1994. The Third Faculty of Medicine was a party in awarding a honorary doctorate to one of the discoverers of DNA, Nobel Prize winner, prof. James Watson. Likewise, on the occasion of the 650th anniversary of the Charles University foundation, we suggested that another Nobel Prize winner, a world-wide known neurophysiologist, Professor Huxley from Great Britain, be also awarded a honorary doctorate in 1998. MUDr. P. Čech of our Faculty initiated the placement of honorary plaques in memory of the Nobel Prize winners in Medicine Mr. and Mrs. Cori to their birthplace houses in Salmovska and Petrška streets in Prague within the project Prague-European City of Culture 2000.

The co-operation among individual Faculties of the University, in particular Faculties of Medicine, is on the increase. The University supports healthy competition in sport activities among faculties, and students also take part in various social and cultural events not only in this country but abroad. The Faculty publishes VITA NOSTRA magazine, reflecting the academic life of the community and representing diverse sides of the Faculty in two functionally distinct issues: VITA NOSTRA REVUE, a quarterly collection of articles, commentaries, and reflections, and VITA NOSTRA SERVIS, an information bulletin which comes out on a weekly basis.

In the academic year 1991/92 the Faculty took on foreign students in General Medicine with the Focus on Prevention. The language of instruction is English. The rights and duties of foreign students are stipulated in the contracts signed between the student and the Dean of the Faculty.

A year later, the Faculty opened Bachelor studies in 'Physiotherapy' and 'Health Sciences'; two years later a new programme called 'Public Health Care' was introduced. A higher quality education of nurses in accordance with European standards is provided in the Bachelor's programme in Nursing since 2002/2003.

New demands of modern medicine on doctors are reflected in the new curriculum of Medicine, which the Faculty has been implementing since the academic year 1996/97.

The teaching basis of the 3FM includes the Faculty Hospital Královské Vinohrady in Prague 10, Psychiatric Centre Praha, Faculty Hospital Bulovka, Thomayer Faculty Hospital, Institute for Mother and Child Care in Prague Podolí, Hospital Na Homolce, Central Military Hospital, Hospital Pod Petřínem and State Health Institute. Prominent experts of the Czech Academy of Sciences and Institute of Clinical and Experimental Medicine also participate in the teaching.

WORKPLACES OF THE THIRD FACULTY OF MEDICINE

BASIC WORKPLACES FOR EDUCATION AND RESEARCH

A) DEPARTMENTS

Department of Anatomy Department of Biochemistry and Pathobiochemistry Department of Biochemistry, Cell and Molecular Biology Department of Child and Youth Health Department of Epidemiology Department of Ethics Department of Foreign Languages Department of Forensic Medicine Department of General Biology and Genetics Department of General Hygiene Department of Histology and Embryology	Department of Immunology Department of Medical Biophysics and Informatics Department of Medical Microbiology Department of Normal, Pathological and Clinical Physiology Department of Nursing Department of Nutrition Department of Pathology Department of Pharmacology Department of Physical Education Department of Sport Medicine
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

B) DEPARTMENTS jointly with ...

Jointly with FNKV

1st Department of Internal Medicine
 2nd Department of Internal Medicine
 3rd Department of Internal Medicine - Cardiology
 Department of Anaesthesiology and Resuscitation
 Department of Burns Medicine
 Department of Cardiac Surgery
 Department of Children and Adolescents
 Department of Dermatovenerology
 Department of General Surgery
 Department of Gynaecology and Obstetrics
 Department of Neurology
 Department of Neurosurgery
 Department of Nuclear Medicine
 Department of Occupational and Travel Health
 Department of Ophthalmology
 Department of Orthopaedics and Traumatology
 Department of Otorhinolaryngology
 Department of Plastic Surgery
 Department of Radiodiagnostics

Department of Radiotherapy and Oncology
 Department of Rehabilitation Medicine
 Department of Stomatology
 Department of Urology

Jointly with FTNsP:

Department of Child Surgery and Traumatology of the Third Faculty of Medicine and Thomayer Faculty Hospital with Polyclinic

Jointly with FNB:

Department of Infectious Diseases
 Department of Pneumology

Jointly with PCP:

Department of Psychiatry and Medical Psychology

Jointly with ÚVN:

Department of Otorhinolaryngology of the Central Military Hospital and Third Faculty of Medicine

Jointly with ÚPMD

Institute for Mother and Child Care in Prague Podolí

C) AUTONOMOUS WORKPLACES

Centre for Health Law	Division of Primary Care
Division of History of Medicine	Division of Public Health

FUNCTIONAL UNITS OF THE FACULTY

Functional units of the Faculty are Centres, Departments and Research Centres.

EDUCATIONAL

Departments

Department of Biomedical Sciences
 Department of Gynaecology and Obstetrics
 Department of Surgery
 Department of Internal Medicine

Department of Preventive Medicine

RESEARCH

Centre for Research on Diabetes, Metabolism and Nutrition
 Centre for Hemochromatosis
 Cardiocentre
