THANKS TO PROFESSOR MICHAŁ ANDĚL

Today, on February 1, 2018 attends the ceremonial handover of the Dean of the 3rd Medical Faculty of Charles University in Carolinum. From 28 years of new form of successor of the former Medical Faculty of Hygienic Prof. MUDr. Michal Anděl, CSc., was the dean exactly half of this time - 14 years. At a time when he was not a dean he was a vice-dean for science he had been in the faculty management for the whole time. He was able to impress an original face of the faculty - a mixture of friendly atmosphere and academic ambition – (and of course with the two other deans at that time). At today's ceremony the rector on behalf of the university thanks to prof. Anděl, as well as I on behalf of all the co-workers. Here in the VNS I would also like to express my personal thanks and the admiration of his generosity: although I often was an opponent (in terms of the relationship between internal medicine and cardiology, in the 2009 dean's choice), he always played fair and always overridden the interest of the whole for his personal interest. This will be a great example to us.

Originally, I wanted to insert a photo of the professor in the gown with decan insignia. This photo, however, better describes the atmosphere under his leadership at the faculty: the dean is decorating a student of a successful student run at the Vinohrady area.

I would like to establish a friendly and open atmosphere which is at the faculty. I am sure that if we have such active students with original ideas not only in the studio but also in interesting out-of-school activities, if we continue to maintain the positive relationship of our students to their maternity faculty, if our best students become faculty teachers and scientists, we do not have to worry about the future of the faculty. For me and the entire team of the new college, I promise that we will make the best.

Petr Widimský

THANKS OF ING. JANĂ MUŽÍKOVÁ

Dear Ladies and Gentlemen,

yesterday ended my 14 years job as Secretary of the 3rd Medical Faculty. It was nice years for me, I always enjoyed my work. The reason was not only a look at the flourishing faculty but above all meetings with you, clinical staff, institutes and colleagues at the Dean's Office.
Let me therefore thank everyone for this beneficial cooperation and wish you the joy of work in successfully in a
friendly environment in the next year, well-being in your personal life and the solid health of you and your neighbors.
