CEREMONIAL INAUGURATION OF SPECTABILIS DEAN PROF. MUDR. PETR WIDIMSKÝ, DRSC.

On February 1, 2018 prof. MUDr. Petr Widimsky, Head of 3rd Internal-Cardiology Clinic FNKV and the 3rd Medical Faculty of Charles University was appointed of a Dean of the 3rd Medical Faculty of Charles University.

His priorities in the field of study will be to support the development of theoretical and pre-clinical disciplines, to develop practical training from the first year of study, introducing of modern teaching methods, to expand the number of cooperating healthcare facilities, to continue the international cooperation under the Erasmus program. In the field of science - the development of key research areas at the faculty workplaces and a modern approach to the science evaluation with the support of scientifically successful teams and young scientists.

We wish the Dean to be successful in his new role.

E-RESOURCES IN YEAR 2018

From the year 2018 the access to all e-resources for institutions (including Charles University) is coordinated and implemented through the CzechElib National Agency. This is a long and complicated negotiation within the whole of the Czech Republic and unfortunately it does not exist without problems. Currently the access to all pre-paid e-resources at the CU should be functional, but part of the resources are still available under so-called temporary arrangements (the contracts are not completed and signed, etc.). Therefore these temporary fixes need to be restored periodically and may cause short-term access failures (last week a downtime in UpToDate which is now operational in both direct and remote access, except the AnyWhere mobile interface that will be resolved after signature of the contract).

It is not our responsibility to check the functionality of all our pre-paid e-resources daily, so please if you encounter a problem with access to e-resources that are guaranteed at PEZ UK, for 3rd FM CU, please write about the problem with access to: Mirka.Plecita@lf3.cuni.cz.

The complaints of EIZ through CzechElib are now without complications so we have to hope that everything will be soon solved and that e-resources will be launched under proper contractual arrangements.

Miroslava Plecitá, CSI 3rd FM CU
