PRAGUE SYMPOSIUM ON CANCER METABOLISM

May 29, 2018, Prague, Czech Republic

When: May 29, 2018 (Tuesday)
9:00am – 4:30pm (Concluded by a social evening 7:30pm – 11:00pm)

Where: Pelouchova posluchárna at the Second Faculty of Medicine, Charles University, Prague

Why: Prague Symposium on Cancer Metabolism is an international event organized by CLIP — Childhood Leukaemia Investigation Prague at the Second Faculty of Medicine, Charles University. We aim to gather scientists from the research field of cellular and cancer metabolism. We believe that this unique event will be appreciated by the research community, will create opportunities for students and others to embrace the new topic and will set up a suitable environment for networking and establishing new collaborations. You can expect invited speakers from the field of cancer metabolism from the Czech Republic and abroad. The participants are encouraged to submit abstracts and will be given the opportunity to present their research in the form of oral presentation or poster.

The symposium will be held under the aegis of the Second Faculty of Medicine, Charles University and Czech Society for Analytical Cytometry.

We are looking forward to seeing you all.

On behalf of the organization committee,
Júlia Starková, PhD. (julia.starkova@ifmolot.cuni.cz)

TRIAL ACCESS TO PUBLISHERS’ JOURNALS OF BENTHAM

Now you can use the trial access to the Bentham Science Publishers full-text collection until June 12, 2018. The collection covers the area of STM - pharmaceutical and biomedical scientific journals and is unique in the Czech Republic. The trial access relates to articles that have been published over the years 2000 and 2017. More information including both direct and remote access is available at Portále elektronických zdrojů UK.

NEW E-BOOKS AVAILABLE AT CHARLES UNIVERSITY

The National Technical Library purchased a collection of e-books of four major publishers (Elsevier, Springer, Wiley and Taylor & Francis). These collections are available to members of national journals organized through the National Agency for e-Resources (CzechElib) and so for the whole Charles University.
In the case of Springer publisher - this is a permanent purchase, the remaining three publishers there is a selection based on Evidence Based Selection (that is, the first year is available, then NTK will select the most borrowed titles and then are going into permanent purchase).

More information on this project, including a list of titles for individual publishers, can be found on the NTL project website na stránkách projektu NTK.

At present all collections (except Taylor & Francis) are activated at CU and T & F is now fine-tuned with publisher settings.

You can find all titles now at PEZ-UKAŽ.

MORPHEUS CUP

Paris, March 13th, 2018 - HUNDREDS OF TALENTS WILL MEET IN PARIS FOR THE 4TH EDITION OF THE MORPHEUS CUP

On April 12th, hundreds of European students will gather at the Palais Brongniart, at the heart of Paris (France), for the fourth edition of the Morpheus Cup, the largest European universities and graduate schools’ championship. The competition is divided into two parts: THE MORPHEUS PRIZE, a remote call for projects, and the MORPHEUS DAY, a live competition with thematic challenges. Students also have the opportunity to visit the event to meet potential employers and share their views with their European counterparts.

Great European companies and organizations such as BNP Paribas, PwC, MACIF, Leroy Merlin, Docler Holding, Pépite France, La Maison des Initiatives Etudiantes, ICT Luxembourg, Crème de la Crème or Davidson Consulting, are looking to support student-lead startups and projects in the fields of Artificial Intelligence, cybersecurity, customer experience, e-commerce & retail, entertainment & media, Internet of Things, human capital, mobility & logistics, circular & green economy, energy, healthcare... Through the organization of unique and one-of-a-kind innovation challenges, the competition also invites young talents to overcome their limits, boost their creativity and skills, and try to win up to €25,000 worth of prizes.

A WIDE LIST OF CAMPUS FROM ALL AROUND EUROPE

A lot of graduate schools and universities already take part in the event including Algebra University (Croatia), Aristotle University of Thessaloniki (Greece), Business School Lausanne (Suisse), Catholic University of the Sacred Heart (Italy), Corvinus University of Budapest (Hungary), Dauphine Paris (France), Department of Materials, University of Oxford (UK), Design Academy Eindhoven (Netherlands), ECAM Brussels Engineering School (Belgium), ECE Paris (France), Ecole Nationale Supérieure des Mines de Nancy (France), EDHEC Business School (France), EPITECH (France), Euridis Business School (France), Faculdade de Ciências da Universidade do Porto (Portugal), Faculty of Economics and Business (Croatia), HEC-ULiège (Belgium), Hochschule für Gestaltung Pforzheim (Germany), IED Madrid (Spain), Imperial College London (UK), Inria (France), Karadeniz Technical University Kanuni Campus (Turkey), Nyenrode Business University (Netherlands), etc.

EASY ACCESS AND A LOT OF PRIZES

An endowment of €20,000 in cash, 50 free tickets for the ICT Spring Europe event, connections with employers and investors as well as equipment and prizes are up for grabs. It is really easy to take part in the Morpheus Prize as you only have to send a 10-slide PowerPoint presentation on the website www.morpheuscup.com BEFORE MARCH 20TH 2018 individually or as a team. Registration for the Morpheus Day’s live competition or to simply visit the exhibition area is also to be done online, before April 5th, 2018.
